

# "CHRISTIANITY NOT AN ACCIDENT," SAYS DR. HARRY E. FOSDICK

## Large Crowd Fills Robert's Hall for Second of Library Lectures

### WANT RELIGIOUS GROWTH

"Christianity is not an accident, and it is neither an addition to, a suppression of, nor an abnormality in life," said Dr. Harry Emerson Fosdick in his lecture given to a capacity audience in Robert's Hall on the night of Friday, March 6. This was the second of the two annual Library Lectures, the first of which was delivered by Dr. Michael Pupin, the noted scientist. The lecture was broadcast through the college radio station.

The subject of the lecture as announced by the noted New York divine was "The Inevitability of Christianity." The speaker was introduced by President Comfort, who pronounced Dr. Fosdick a professor of Practical Theology at the Union Theological Seminary. Dr. Fosdick would have a real practical turn in his message.

### Faithful to Fulfillment of Life

Dr. Fosdick started his talk by saying that religion in general has often been said to be the above three things, that is supplementary, oppressive or abnormal in relation to life. This, he said, was false, religion being the only means to a complete fulfillment of what Paul called "a many life."

"Because of the limited time available, Dr. Fosdick did not go into the proof that Christianity was the highest of all forms of religion, but took it for granted that his audience agreed with him on this point so as to be able to devote his time to the question of the absolute necessity of religion of some sort, leaving it to his hearers to see that Christianity best fulfilled the needs of religion fills."

"If religion is either supplementary to life, oppressive to it, or an abnormality, then it is doomed, for unless man is incomplete without it, it cannot live." The speaker said that he would take the best Christianity, Dr. Fosdick went on to prove his point of its absolute necessity.

### "Happiness is Hall Mark of Life"

"Let us take the constituents of our personalities and see if any of them is complete without religion. Take first Joy or Happiness." The speaker then went on to point out that human happiness, that the perfect functioning of our lives brings joy and, as he so aptly put it, "Happiness is the hall mark of life," anything, that is of the highest quality, that is right being happy. Then, realizing that happiness is necessary to a full life, could this joy exist fully without religion? In order to test this, Dr. Fosdick suggested that one make a complete and sincere statement of irreligion. Deny that there exists anything real in the world except the eighty odd elements; that everything of life has been so wonderful, how much more wonderful may death be, and what comes after it. But fear of conscience should be outgrown, for conscience is what tells us the difference

## CRICKET MANAGEMENT PLANS ENGLISH TRIP

### Need of Courage and Strong-heartedness in Facing English Stressed

## STRICT TRAINING URGED

Plans for the invasion of England by the Haverford cricket XI were the subject of a meeting of alumni and students interested in that sport, held in the Union on Friday, March 6. Preliminary for a good cricket player were enumerated by former stars of College teams, and the need of strict training and attention to the fine points of the game were stressed, inasmuch as the English opponents of the XI will have had more intensive drill.

Mr. Edward Rice, Jr. was the first speaker of the evening. He outlined briefly the purpose of the meeting and mentioned the plans for the English trip. The fact that cricket was not given as much space in The News as other sports was brought up, and the desire for greater publicity was expressed. In reference to the English trip, Mr. Rice stated that fifteen reservations had been procured on the S. S. Albania. Eight of these berths are outside and the remaining seven are on the inside. The steamer is a small one-cabin boat, going directly to London. On the return voyage twelve accommodations have been secured on the S. S. Carmania. This was done with the idea in view that, upon the completion of the playing schedule, several members of the team will wish to remain on the Continent till the opening of the College year. The Carmania leaves England on August first.

### Players to Pay Own Expenses

The trip will last forty-two days, and the approximate expenses per person will be six to seven hundred dollars. It is expected that all those who are in a financial position to pay their own way will do so. If the players are unable to do this the fact should be reported to the proper authorities by the first of April. In all probability, the Haverford team will be the guest of their English hosts for several evening entertainments. Mr. Rice stated in closing that the object of the trip was to give the team a good cricket eleven, whether the players can afford the tour or not.

## VOCATIONAL WORK

### Secretary Hoopes Pleased With First Results of Campaign

A gratifying result has been obtained, according to Alumni Secretary Hoopes, in the "Haverfordians Employ Haverfordians" supplement sent out with the News two weeks ago. The supplement was the second in a series of similar ones at the suggestion of the Alumni Finance Committee of which Loring Dam, '17, is chairman. The first insert covered the winter vacation. The establishment of permanent opportunities has been proposed to date by individual Alumni and by industrial concerns to the number of fifteen; while summer opportunities have been proposed from several sources. This is regarded by the secretary and the seasonal Finance Committees as a good result, although it is hoped that more Alumni will be heard from as opportunities open during the spring. The establishment of the secretary's office as the clearing house for making such employment connections has resulted in more than one definite contract, and more are expected.

# NEED FOR PERMANENT SWARTHMORE ALLOTTED CHAIR OF GOVERNMENT LARGE APPROPRIATION SHOWN BY DR. COMFORT FOR HONORS COURSES

## Endowment Fund Included in Centenary Budget to Be Raised by 1933

### CURRICULUM INCOMPLETE

(This is the third of a series of articles written by President Wm. W. Comfort on the plans for the establishment of Haverford before the Centennial in 1933)

The lack of a chair of Political Science and Government at Haverford College has been felt for a long time. Occasional courses have been given in these subjects in the past, but the attempt to fill this lack has been sporadic and has by no means proved a solution of the situation. We have had for years properly equipped departments in History, Economics and Sociology, but in the closely allied field of Political Science and Government there have been no adequate courses available.

It is felt that in a Quaker college it is particularly important that students should have an opportunity to make themselves acquainted with the principles underlying our own government and that of the countries with which we are in most intimate contact. It is felt, further, that this knowledge, together with the history of the relations of our government with that of other countries in the past would go far to lessen the chances of international misunderstanding and dispute.

There has been included, therefore, in the proposed budget for a Centenary Fund, to be completed before 1933, this important item of \$125,000 to provide adequately and permanently for the endowment of a chair of Political Science and Government. Of all times in our national and educational history, this appears to be the most favorable moment to secure such a chair. It is hoped that friends of the College who desire to see a better understanding between civilized nations in the future, will feel that Haverford College is a proper institution in which to establish and maintain such a chair as that to which reference has been made.

# HAVERFORD RADIO STATION EXTENSION PRESENTED TO A. E. E. ACTIVITY CONTINUES

## Leeds and Gross Speak to Engineers at Houston Hall

Wintrop Leeds and Gerald Gross addressed the Convention of the Student Branch of the American Institute of Electrical Engineers at Houston Hall this morning. Their subject was "Radio Activities of the American Institute of Electrical Engineers." Various other phases of electrical engineering were discussed by representatives from Lehigh, Lafayette and Swarthmore.

### Leeds Tells of WABO

Leeds then sketched the history of the Haverford station and gave a general description of the broadcasting station which he also told of the radio club mess with Oxford, and Gross then explained a series of slides which dealt with the work and equipment of the Radio Club. J. B. Powell and C. L. Craven, of Lafayette College, concluded the program by a discussion of "The Oil Electric Light Bulb."

In the afternoon the Convention split up. One group took an inspection trip thru the Delaware Station of the Philadelphia Electric Company, another visited one of the machine switch-boards of the Bell Telephone Company and the rest motored to three of the local small colleges. At Haverford a reception committee, consisting of Hoopes, Rogers, Schulte, Willy, Thomas, Bentley and Borton, showed them around.

### Pittsburgh Club Will Work During Vacation

The Pittsburgh Club will during the vacation. The Pittsburgh Club, under the chairmanship of Watson, '25, is soon to have a meeting to discuss plans for the club during the spring vacation.

## LATIN PLAY WILL BE PRESENTED ON MONDAY

### Two Performances to Be Given; Prep Schools Invited

Two performances of Terence's *Adelphoe* will be given by the Classical Club on Monday, March 16, at 4:30 and 8:15 in Roberts Hall. Dr. Lockwood and Eileman, classic architects and builders, occasionally aided in their manual labors by less experienced classicists, have completed the new scenery for the acting. The painting of the scenery was begun on Saturday, February 28, and is now nearly completed. Rehearsals are being held daily and great progress is being made the acting. The dress rehearsal will be held Saturday, March 14, at 1:30. Mrs. Lockwood is as usual taking charge of the costuming and has fitted out most of the cast.

The club has invited the Latin departments of all the preparatory schools in and about Philadelphia to attend either of the performances. A resented in the audience last year. The list of those invited to this performance includes: Germantown Friends' School, Swarthmore, Mrs. Caskin's School, Miss Wright's School and Germantown High School.

# HAVERFORD FIVE MEETS SWARTHMORE SATURDAY

## Scarlet and Black Never Has Downed Garnet; All Games Close

## TEAMS EVENLY MATCHED

The basketball game between Haverford and Swarthmore, to be played in the Mary Lyons School gymnasium on Saturday, the evening of March 14, will be the sixth annual meeting of the two rival colleges. So far the Scarlet and Black has never downed Garnet five, but the scores have always been close, and for the last three years the victory has only been decided in the last seconds of play.

The first game was in 1920, when Swarthmore won, 24-18, in a fast and closely fought match. The following year the count was the most decisive which has yet been recorded, the Garnet chalking up a 24-13 victory. In 1922, a last-second foul broke the existing deadlock and gave Swarthmore the long end of an 18-16 score.

### Wintrop Leeds and Gerald Gross addressed the Convention of the Student Branch of the American Institute of Electrical Engineers at Houston Hall this morning.

### Hoopes has been visiting this last week, schools near Philadelphia, including George School, St. Luke's, Swarthmore Prep, Moorestown High, Haddonfield High, Blair Academy and some of the Philadelphia high schools. He has taken with him, as far as possible, alumni of these schools who are in college now, and has conferred with them on the best ways to improve and talked to the students, offering any information they might desire concerning entrance at Haverford.

## OFF-SEASON SMOKER

### No Training Rules in Force at Junior-Rhine Smoker

The Junior-Rhine smoker has been arranged by the Campus Events Committee and will be held on the evening of March 10 at the Tavistock Country Club, Haddonfield. Prospective students from the south of Jersey will be invited and the alumni will have the opportunity of meeting them.

### South Jersey Banquet Tuesday

The dinner of the South Jersey Alumni Association will be held on the evening of March 10 at the Tavistock Country Club, Haddonfield. Prospective students from the south of Jersey will be invited and the alumni will have the opportunity of meeting them.

### Japanese Ambassador Will Speak Friday

The Hon. Roland S. Morris, ex-Ambassador to the United States of Japan, will give a lecture on "Some Recent Developments in the Far East" in Roberts' Hall, on Friday evening, March 13, at 8 o'clock.

### College Calendar This Week

MONDAY—M. M. C. A. in the Union. 8:30. Instrumental.

TUESDAY—Scientific talk on "The Shallow Water" will talk on "The Shallow Water" at 6:30. Alumni basketball vs. V. J. at 8:00.

WEDNESDAY—M. M. C. A. in the Union. 8:30. Instrumental.

THURSDAY—Freshman track meet over the Lower Merion. Inter-collegiate football at 4:45. Varsity debate with the University of Pennsylvania at 7:15. Varsity debate with the University of Pennsylvania at 7:15.

FRIDAY—Dr. Roland S. Morris will give a lecture on "Some Recent Developments in the Far East" in Roberts' Hall at 8:00.

SATURDAY—Varsity debate with the University of Pennsylvania at 7:15.

SUNDAY—Varsity concert. S. S. W. at the Academy of Music. 8:00.

# SECOND HALF RALLY WINS FOR HAVERFORD OVER URSINUS 41-26

## Accurate Foul Shooting of Varsity Five a Feature

### CHADWICK HIGH SCORER

By a surprising comeback in the second half, which overtook the visitors' first period lead, the Varsity basketball team trounced Ursinus, 41-26, in the gym last Saturday, March 7. Returning on the floor at the short end of a 20-16 score, the Scarlet and Black quintet ran up eleven points before their opponents could count a single goal. After that they were never headed, increasing their lead advantage steadily until the end of the game.

Haverford took the lead early when Logan made good two foul shots and Chadwick one. Kearn tied the score with a foul goal, but Logan and Chadwick and P. Garrett both sunk free tries, putting the home team evened the contest. On this point on the two sides scored alternately until the tally was 13-13.

### Penalty Shots Keep Score Close

Haverford had been scoring mainly on penalty attempts, making good eight out of ten in the first half. Practically all Ursinus' points were made on shots from the floor, and two of these just at the end of the half left the visitors with one goal.

The second period, however, was a different story. Haverford counted first on Logan's foul shot. Then the Scarlet and Black attack got into action and the series of fast, clever plays pulled up five field goals in rapid succession.

Chadwick started the onslaught when he evaded his guard by a pretty pivot around the basket and dropped the ball through the net. Logan caught a pass close in and arched a shot through the rim. Mitchell picked the ball off the floor at the foul line and lifted it in with one hand.

### Melchior and Logan Count

Melchior dribbled from the centre of the floor through the Logan Ursinus guard on an easy goal. Logan scored on a long one from the foul line. The score was 27-20, and Ursinus never again threatened to take the lead. Hoopes managed to break the streak when he dropped one in for the visitors.

But eight more foul goals out of ten chances, coupled with three more from the floor pulled the Haverford total up to 41 before the game ended.

With the exception of their second half rally, the most striking feature of home team's game was the foul shooting. Seventeen were scored out of a possible twenty-two. Chadwick alone made seven out of eight.

## 1927 DEBATERS MEET

### Society Has Reorganized and Plans Active Season

The 1927 debating society has reorganized and held its first debate this week on Monday, March 2, in the Union. The proposition was: Resolved, that secret societies in public high schools should be abolished. The chairman of the debate was A. V. Fowler and the team were: negative, H. W. Saunders, affirmative, Roland S. Morris. The judges returned a decision of 3-2 in favor of the affirmative.

It is planned to hold debates every three weeks. The next one will be held on Monday, March 23, at which time the proposition will be debated: Resolved, that this year's system of Freshman regulation is superior to last year's.

### College Calendar This Week

MONDAY—M. M. C. A. in the Union. 8:30. Instrumental.

TUESDAY—Scientific talk on "The Shallow Water" will talk on "The Shallow Water" at 6:30. Alumni basketball vs. V. J. at 8:00.

WEDNESDAY—M. M. C. A. in the Union. 8:30. Instrumental.

THURSDAY—Freshman track meet over the Lower Merion. Inter-collegiate football at 4:45. Varsity debate with the University of Pennsylvania at 7:15. Varsity debate with the University of Pennsylvania at 7:15.

FRIDAY—Dr. Roland S. Morris will give a lecture on "Some Recent Developments in the Far East" in Roberts' Hall at 8:00.

SATURDAY—Varsity debate with the University of Pennsylvania at 7:15.

SUNDAY—Varsity concert. S. S. W. at the Academy of Music. 8:00.

Curriculum Shells

The Harry Emerson Fosdick, in delivering the second of the annual library lectures, asked that individuals cease to confine themselves in narrow shells—that they take learning from the example of the crab, which each year leaves off its old shell to grow into a new and larger one.

The expansion and development of the Swarthmore honors courses through the medium of a five-year endowment from the Rockefeller Foundation is one evidence of this movement.

Haverford must creep from out its shell if it is to maintain its high standards. Indeed, already there are tendencies plainly evident in this direction.

Courses are now unofficially offered in which certain students are required only a minimum of classroom attendance and a maximum of creative outside work on the students' own initiative.

The great obstacle that stands in the way of more complete adoption of honors courses seems to be the one of time. The path of student initiative is opened up by the instructor through special conference methods which demand a prodigious amount of time on the part of the professor.

Swarthmore has managed to get over this difficulty by enlarging available money to be spent and thus providing for more instructors. Until such a time comes at Haverford, it is naturally upon students and professors to co-operate that practical honors courses in many subjects may be carried out.

SUNDAY TENNIS?

With the advent of the tennis season, an amusing question proposes itself to the skeptical: namely, what logical reason can exist for the ban on Sunday tennis?

Like an open skating pond, tennis on Sunday would do a great deal to fill the week-end gap which usually finds many to go home for amusement. Having the tennis courts available on Sunday would also increase the number of students able to use the courts.

INFORMAL DISCUSSIONS

LED BY "ERD" HARRIS

"Relationship With Girls" Is Topic of Week's Y. M. C. A.

"Relationship With Girls" was the subject taken by "Erd" Harris for his talk to the Y. M. C. A. on Wednesday evening, March 4.

"Erd" first discussed the average college man and his relations with girls of that should be and what they often are. He gave several illustrations of his points by telling of men with whom he had contact in college and afterwards, giving their difficulties.

He emphasized the fact that as a rule it is better to eliminate entirely from relationship with girls anything approaching the physical and to establish firmly mental compatibility.

He also spoke of a lack of this consideration is the cause of much of the present day matrimonial trouble. He spoke of the all too prevalent ignorance on sex problems and advised that the college man do his best to help ally that condition by informing himself.

Harris noted that a lack of this consideration is the cause of much of the present day matrimonial trouble. He spoke of the all too prevalent ignorance on sex problems and advised that the college man do his best to help ally that condition by informing himself.

ALUMNI NOTES

'90. Dr. Robert William Rogers, distinguished Orientalist at Princeton University, received the degree of Doctor of Letters recently from the University of Pennsylvania.

'91. Lawrence W. DeMotte is treasurer and director of the Langslow-Powder Company of Rochester, New York.

'95. Word has been received of the death of Lyndon L. White which occurred in February at Winston-Salem, North Carolina.

'95. The honorary degree of Doctor of Pedagogy was conferred upon Leslie B. Seely recently at the midwinter academic exercises of Ursinus College.

'11. Herbert V. B. Gallagher has recently become associated with Yarnal & Co., a newly formed organization dealing in investment securities, with offices at 218 South Sixth street, Philadelphia.

'14. Mr. and Mrs. Charles Rhoads Williams announce the birth of a son, Gerald Rhoads, on February 25 at Brooklyn, New York. They recently moved to their new home at Freeport, Long Island.

'14. Mr. and Mrs. A. M. West of Wilmington, Ohio, announce the marriage of their daughter, Ruth Ellen, to Stewart P. Clarke, of Media, Pa., on January 31, 1925.

'14. Mr. and Mrs. A. M. West of Wilmington, Ohio, announce the marriage of their daughter, Ruth Ellen, to Stewart P. Clarke, of Media, Pa., on January 31, 1925.

'14. Mr. and Mrs. A. M. West of Wilmington, Ohio, announce the marriage of their daughter, Ruth Ellen, to Stewart P. Clarke, of Media, Pa., on January 31, 1925.

'14. Mr. and Mrs. A. M. West of Wilmington, Ohio, announce the marriage of their daughter, Ruth Ellen, to Stewart P. Clarke, of Media, Pa., on January 31, 1925.

'20. In an account in the Philadelphia Bulletin of a presentation of "The Man From Toronto" which was given by the Three Arts Club at the Playhouse of the Plays and Players recently, the acting of Thomas H. Kearney is praised highly.

'20. E. Harold Lobough is finishing his course in the Theological Seminary, St. Louis, Missouri, this June and plans to take up theological work in Abyssinia. Lobough graduated from Mansfield College after leaving Haverford.

'21. Julian S. Long and David E. Mataka are listed among sixty-nine physicians completing their courses from Philadelphia medical colleges, who have qualified before the Civil Service Commission for appointments as internes in city hospitals.

'22. J. Harley Peltier, who has been executive secretary of the Pennsylvania Lumbermen's Association and editor of the association's publication, "The Pennsylvania Lumberman," at 15 with the Evening Bulletin in an editorial capacity.

WALTER '99, TO HEAD

MINNESOTA LIBRARY

New Library Will Consist of Newest Type of Equipment

Frank K. Walter, '99, is the librarian of the new library at the University of Minnesota, which cost over \$1,250,000. The building, which is one of the most pretentious of its kind in the United States, has a theoretical capacity of 2,000,000 volumes.

The stack room is the largest ever built, consisting of twelve stories. The main building has four floors, which are divided into numerous special seminar rooms, map rooms, "browsing" rooms and reserved book rooms.

There are elevators and electric book lifts as well as chutes for books. There is also space for a library school which may be started later.

Walter is prominent librarian. Mr. Walter is one of the foremost librarians of the country. After leaving Haverford, he taught for several years and then went into library work at Brooklyn Public Library in the capacity of reference librarian.

He served during the war in the Signal Corps and then returned to his library work, gradually rising from one post to another until he was made librarian at the University of Minnesota in 1921. He is responsible to a large extent for the splendid results achieved in the construction of the new library.

DR. TWEEDY WILL SPEAK BEFORE Y.M.C.A. MEETING

Conference Time is Available: Dr. Pearson Will Speak Later

Dr. Henry H. Tweedy will be the speaker at the meeting of the Y. M. C. A. on Wednesday evening, March 11. Dr. Tweedy is a professor at the Yale Divinity School and has done much speaking to college Y. M. C. A.'s and summer conferences.

He will speak in the evening to the Y. M. C. A. on Wednesday evening, March 11. Dr. Tweedy is a professor at the Yale Divinity School and has done much speaking to college Y. M. C. A.'s and summer conferences.

BASKETBALL MEN LOSE TO TEAM FROM TEMPLE

Extra Five Minutes Needed to Break 37-37 Deadlock. Chadwick Scores 13

In a game that ran to an extra five-minute period, the varsity basketball team was defeated by Temple University in Philadelphia last Wednesday, March 4, by a 42 to 39 score.

Both quintettes were fouling rather freely, but Temple made good more of the opportunities. Four fouls out of twelve attempts to Haverford's three out of eleven.

Toward the end of the period, Haverford, with a 35-35 lead, seemed due to win, but Temple pulled the score up to a 37-37 deadlock before the whistle blew.

Extra Period Fought In the extra five minutes the Philadelphia quintet scored first on Unger's foul shot. Logan dribbled the ball down the floor and dropped it through the basket, giving Haverford the lead. But Temple's team hit a goal from beyond the middle of the floor, followed by a two-pointer and a free shot by Thornton, assured the victory to Temple by a 42-39 score.

Line-up: Haverford Positions: Temple. Logan, 4; Kern, 5; Mitchell, 6; Chadwick, 7; Unger, 8; Thornton, 9; Garrett, 10; Logan, 11; Kern, 12; Mitchell, 13; Chadwick, 14; Unger, 15; Thornton, 16; Garrett, 17; Logan, 18; Kern, 19; Mitchell, 20; Chadwick, 21; Unger, 22; Thornton, 23; Garrett, 24; Logan, 25; Kern, 26; Mitchell, 27; Chadwick, 28; Unger, 29; Thornton, 30; Garrett, 31; Logan, 32; Kern, 33; Mitchell, 34; Chadwick, 35; Unger, 36; Thornton, 37; Garrett, 38; Logan, 39; Kern, 40; Mitchell, 41; Chadwick, 42; Unger, 43; Thornton, 44; Garrett, 45; Logan, 46; Kern, 47; Mitchell, 48; Chadwick, 49; Unger, 50; Thornton, 51; Garrett, 52; Logan, 53; Kern, 54; BUILDING OF AIRCRAFT TO BE SUBJECT FOR SCIENTIFIC MEETING

Lieutenant Mayer Will Speak Especially of "Shenandoah"

Aircraft construction, with special reference to the U. S. Dirigible, Shenandoah, will be the subject of a lecture by Lieutenant R. G. Mayer, the repair officer of the Shenandoah, which will be given at a meeting of the Scientific Society on Tuesday evening, March 10, at 8:00 o'clock in the Chemistry Building.

Lieutenant Mayer plans to discuss several of the most recent scientific developments in aircraft construction and testing. Among these are the optical method of testing stresses, the method of testing stresses by Electrical Thermopiles, and the experiments in the recovery of water from exhaust gases.

Electric Method Practical Lieutenant Mayer has conducted stress tests in both ways; he has found that the Electrical Thermo-pile method is more practical for tests in flight, but he has used the optical method successfully in laboratories.

The recovery of water from exhaust gases bears particular reference to the Shenandoah, as it is one of the most recent types of dirigibles. As a dirigible uses up fuel the loss of weight causes it to rise. In the old hydrogen-filled balloons this tendency could be offset by allowing some of the gas to escape, but the helium used to fill the Shenandoah is too expensive to waste. The attempt to recover water by cooling the hot gases from the exhaust has been so far successful as to almost entirely recover the weight of the fuel consumed.

DR. FOSDICK DELIVERS SECOND LIBRARY TALK

Continued from page 1, column 1 between right and wrong. A conscienceless world can be imagined, Dr. Fosdick said, but not a world without a conscience. "Now, can conscience reach its full growth without religion?" the speaker asked. Again he suggested the statement of complete irreligion. Then nothing matters much, for life has no meaning. The moral life of man is certainly an important part of him, but "moral life in man never reaches its fullness when it is an accident."

Love Is Instinctively Religious The next topic that Dr. Fosdick took up was love, "everyday love," which is perhaps the strongest and certainly the dearest thing in life. He pointed out that whenever love becomes benefited, it reaches out to religion. This is a well-established fact. "The roots of Love and Religion are intertwined. It is hard for real love to think that it is accidental; it is rather a 'bit of God' come into human life."

Mind and Religion Not Opposed Then Dr. Fosdick took Mind, certainly an important part of us. Some think that religion is oppressive to free thinking. In certain forms of religion this may be true, the speaker said, but true religion is not binding, but rather expands with the growth of life. Dr. Fosdick took as his analogy the crab which, when it feels that it is outgrowing its shell, casts aside that shell and forms a new, and more ample one. The shell changes, but the crab is the same crab. Just so, religion remains the same in its essence, although its form and scope may develop.

The fully grown mind is not irreligious. It seeks for truth, and so seeks a meaning in life, and a cause and purpose in it. Hope Is Necessary in Life As the last element to be taken up, Dr. Fosdick named Hope. We must have hope in order to keep on living. If the end of this world is death for us, and a "celestial asphalt" for the Earth, then life is not worth living. Youth has hope just because it is young. And here the speaker put in a word for the much-maligned younger generation, saying that it was franker, more open and clean than past ones.

But as the natural hope of youth fades, something must take its place, and this hope that must take its place cannot be real without a foundation of religion. Dr. Fosdick spoke of his own experience, and how he would have been ago discouraged in his efforts for bringing about the true brotherhood of man without a deeply rooted hope, founded on the base of religion. This, he said, would be the experience of everyone who tried to accomplish anything big and worth while.

In summing up, Dr. Fosdick pointed out that these five elements pretty completely form a man. Happiness, Conscience, Love, Mind and Hope. And he has shown that none of these could reach its full growth without religion. Thus, he had shown the real necessity and inevitability of religion, and especially Christianity.

CONFERENCE DATE

April 9 Set for Gathering of Vocational Committees

The separate Alumni Vocational Committees will be called together at 7 P. M. on Wednesday, April 9, in the Union to confer with interested undergraduates. All men, regardless of their class, interested in consulting with Alumni in any field, business or professional, are urged to sign on sheets which are posted today on the two bulletin boards in Founders Hall.

The committees which plan to meet and whose actions will be governed by the number of undergraduates indicating an interest in their particular field are: engineering, journalism, banking and business, law, ministry and medicine. The Alumni who will participate will attend the Lafayette baseball game on the afternoon of April 9.

CRICKET PLANS ENGLISH TRIP

Continued from page 3, column 3

tance of good catching and accurate fielding was also mentioned.

Strong Team to Be Formed

Captain T. Garrett expressed the opinion that some of the former Haverford graduates should accompany the team. A few of the Alumni disagreed on this point, but it was unanimously decided to present the strongest possible team to play against the English schools. The rumor that at present there exists too much adverse criticism among the undergraduates about retaining cricket at Haverford was discussed, and the desire for co-operation and understanding between the various spring sports was expressed. Mr. C. C. Morris, licensed cricketer to a game of chess, while baseball was relegated to the more plebeian level of checkers. The possibility of inviting Alumni to assist the professional coach was considered. A discussion of the various types of play followed, accompanied by a blackboard talk by Mr. Morris.

The English trip has been arranged through the Bartlett tours. It is desired to make up a crowd of students and Alumni to accompany the Haverford team on the trip. Arrangements to this effect can be readily made by getting in touch with the manager of the Bartlett tours.

The Marylebone C. C. of London has arranged the following schedule for the Haverford XI. It is quite likely that Shrewsbury, Malvern and some of the leading Quaker schools will be added to the following list.

- Saturday, June 27, Tringham. Tuesday, June 30, Repton. Saturday, July 4, Cheltenham. Monday, July 6, Marlborough. Tuesday, July 7, Marlborough. Thursday, July 9, Tonbridge. Friday, July 10, Charterhouse. Tuesday, July 14, Halesbury. Thursday, July 16, Harrow. Saturday, July 18, Eton. Tuesday, July 22, Bognor. Monday, July 27, Bognor.

MRS. SWINBURNE GIVES COLLEGE FOOD FACTS

Worn Out Equipment Restricts Work of Culinary Department

Mrs. Swinburne was interviewed recently and gave out some interesting information in regard to the food situation at Haverford. She says that she does the best she can with the limited budget that is provided her by the College.

Mrs. Swinburne was engaged by the authorities of the College last spring after various means had been employed to improve the conditions in the dining-room. She took over the job about the first of September and was in charge during the Chinese Convention, which was held on the Campus just prior to the opening of the first term.

Last year the budget of \$37,000 was exceeded by \$11,000. This was partly due to the fact that a caterer was engaged during the last quarter of the school year. An increase of \$5000 has been authorized in this year's budget and Mrs. Swinburne has hopes of a further increase in the future.

Kitchen Equipment Antiquated She says that the conditions in the kitchen are representative of some of the worst that she has had to cope with in all her years of experience. The equipment all dates back twenty years, and the floor is in the worst possible shape. The staff is also cramped for room and there is a sad lack of certain types of equipment that are to be found in the kitchens of all modern institutions where a large number of persons are to be served.

"The reason that you have lumps in your mashed potatoes," said Mrs. Swinburne, "is that only hand mashers such as are found in private homes are employed." She goes on to affirm that the chef and his assistant are too much pressed for time to perform their work in a satisfactory manner without the aid of mechanical contrivances, which cannot be obtained under the restrictions of the present budget.

"It would be an act of kindness," she says, "if some one would donate some silver pitchers and soup tureens and thus eliminate the heavy cost of bronze that is being sustained at the present time." An overwhelming amount of china has been bought this year, and it all runs into money. Mrs. Swinburne tries to buy the best possible in the line of meats and vegetables and endeavors to vary the menu in a way pleasing to the students. The food has been very favorably commented on by the student body lately and she deserves a great deal of credit for the showing that she has made with the limited amount of resources that are at her command.
