## Comfort To Speak At Student-Faculty Dinner Tomorrow

### Formalities To Be Cast Aside In Atmosphere Of Festivity

Last minute details for the annual Student-Faculty Dinner to be held in Founders Hall tomorrow night are progressing splendidly, according to Charles Fisher, chairman of the dinner committee. A new and humorous program of entertainment is slated to feature the meal.

President Comfort is to address the diners, and will be followed by two faculty members, the identity of whom is cloaked in mystery. In addition, Professor J. Leslie Hotson, aided by Brown and Oakley on the guitars and Lockwood in some other capacity, will give their usual rendition of "Eine Schoene Haverford," plus a new little number Maestro Hotson has whipped up. With these ballads, caricatures will be seen, adding to the fun.

#### Quartet May Sing

Another feature of the evening's gala schedule is, according to Fisher, "a Thursday night dinner shifted back to Wednesday." There is, as well, the possibility that the College Quartet will sing a program of songs.

This year, a seating system similar to that employed last year has been evolved. Seven or nine men form their own groups and then invite a professor to sit with them. In some cases it will be necessary to place a second professor at a table, as a number of boys have made no selection.

#### Seating Charts Posted

Seating charts are to be found posted on the bulletin board, and the tables will have cards indicating the different professors' names. Fisher requests that all attending will please come promptly at six, when dinner will be served. In the chairman's own words, "The dinner will give all a chance to cast aside the academic air, and have a truly good time."

## Herndon Gives Address At Meeting Of American Political Science Group

Reading a paper on the methods of teaching introductory American government at Haverford, Professor John G. Herndon attended the annual meeting of the American Political Science Association held in Washington December 28, 29, and 30.

One of five professors describing teaching methods in introductory government courses, Professor Herndon read his paper during the Association's opening session on December 28. Other institutions whose teachings methods were described were Brooklyn College, Bowdoin College, University of Chicago and University of Minnesota.

Highpoints of the three-day conference, Professor Herndon said, were panel discussions on Clarence Streit's plan for a federal union of the democracies, political chances of the Democrats and Republicans in 1940, and the delegation of legislative power to government agencies. Discussions were held in the theatre of the Wardman Park Hotel.

#### NEWS MEETING CALLED

Thursday, January 18, at 11:00 A. M., a meeting of the entire News Board will be held in the Union for the purpose of electing freshman candidates to the editorial staff.

## Buck Hill Calls

#### TWO UNKNOWN

Scenes like this will feature a gala week-end when Haverford Winter enthusiasts go to the Poconos after mid-years.

## MacIntosh Leaves To Look Over '44

### Incoming Class To Be Of Necessity Limited In Men Admitted

Prospects for the future class of 1944 are brighter this year than for many entering classes in the past, Dean Archibald MacIntosh said yesterday in announcing that he would leave January 22 on his annual trip to interview prospective undergraduates.

Size of next year's Freshman class will of necessity have to be limited, the Dean added, since this year's graduating class is smaller than usual. At present, the College is filled to capacity, the maximum number of students having been admitted in the last three Freshman classes.

Planning to spend two weeks away from the campus, Dean MacIntosh will visit Pittsburgh, Cleveland, Columbus, St. Louis, Springfield, Chicago, Milwaukee, and St. Paul. Although final details of the trip have not yet been arranged, interviews with prospective students will be arranged through Haverford Alumni societies and preparatory and high schools.

#### MUSICAL TALENT NEEDED

More musicians are needed for the Musicale, Max Steel announced late Sunday night. He urged all those interested to see him soon, as he should like to prepare a list for the tryouts.

## Five Haverfordians Turn Pioneers for Week Of Winter Sports in Northern New Hampshire

Five Haverfordians returning from a novel vacation boast that they have found the secret of having the time of their lives for six days at a cost of only \$3.86 per person. The five were Dave and Ed Flaccus, Howard Blum, Kenneth Roberts and Gordon Howe, who, together with Bill Flaccus, drove up to the Flaccus summer house at Tamworth, New Hampshire, for a week of skiing.

The Flaccus brothers, Roberts, and Blum, traveling separately, met at Tamworth, Tuesday evening, December 26, to find a five-inch blanket of snow on the ground and the thermometer hovering around zero. The house in which they stayed is a thin-walled, made-over farmhouse intended for summer use and having no heating system.

Cooking their own meals and sleeping under piles of blankets

## Glee Club Evolves Plans For Eighth Mid-Winter Party

### Leap Year Dutch Treat Suggested For Buck Hill Falls Dates

Starting with a Glee Club concert Friday night, February 2, the Eighth Annual Haverford Winter House Party at the Inn at Buck Hill Falls, "Snow Sports Capital of the Poconos," will last until Sunday afternoon.

Members of the Glee Club will leave College Friday in time to arrive at the Inn for a rehearsal before dinner. Other Haverfordians and many alumni will arrive for dinner, and the concert which will follow. After the concert there will be a movie or a barn dance with hill-billy music.

#### Winter Sports Slated

Saturday morning and afternoon there will be opportunity for many different outdoor sports, including skiing, sledding, skating and tobogganing. The Inn has four long ski trails, an open golf course for skiing, a large lake for skating, and a toboggan slide. Equipment for the various sports can be rented at reasonable rates. Saturday evening there will be a formal dance followed by an outdoor bar-becue and sleigh riding.

Arrangements for transportation and room reservations should be made through the Business Manager of the Glee Club, Charles K. Peters. Special rates of \$5.50 per day have been offered to Haverfordians and their friends. This rate of \$11 for the week-end includes meals selected from a very inclusive menu. Station wagons will meet trains at Cresco, Pa., station of the Lackawanna Railroad to take guests to the Inn. Transportation will also be provided to and from the lake and toboggan slide.

#### Large Group Expected

"Last year there were about ninety Haverfordians at the Winter House Party; this year we expect a larger crowd because so many people had a good time last year, and interest in winter sports is increasing," Max Steel, President of the Glee Club, stated. Chuck Peters, Business Manager, called the Buck Hill week-end "the only thing of its kind for Haverfordians, the highlight of the winter social season."

As 1940 is leap year, it is expected that many girls will attend the House Party on the "dutch treat" basis.

## Plea For Varsity Show Talent Made

A call for all undergraduate musical and comedy talent was issued Sunday by Robert MacCrate, Freshman president, under whose direction the first Haverford variety show in many years is being tentatively planned for April.

Assisted by Samuel C. McCulloch, MacCrate is drawing up the script for the show, while the musical side of the production has been turned over to Charles Fisher, William E. Meldrum, William W. Stainton, and John C. Marsh. The Main Liners, headed by Fisher, will supply the music for the occasion.

Plot around which the acts will be built are the two sides of the average undergraduate's life — his work and his leisure. Although no cast has definitely been made up, sources close to the brains of the show indicated that the sheep belonging to the Merion Cricket Club will have a place on the program.

## Undergrads Attend Ardmore Y Dinner

### N. Y. U. Dean Addresses Main Line Center; Oakley Presides

Representing the campus organization which since September has participated in the activities of the Main Line "Y," five undergraduates last night attended the annual dinner of the Ardmore Center held in the Y. M. C. A. building on Lancaster avenue. Toastmaster for the evening was Professor Cletus O. Oakley, who introduced the main speaker, Dr. Samuel L. Hamilton, Dean of the School of Religious Education at the New York University. David J. Chambliss, John Y. Elliott, Franklin P. Sweeter, Christopher J. Cadbury, and Howard E. Kriebel, who attended from the College, are club leaders at the Main Line Center.

Following elections of the organization's officers for the next three years, the Main Line "Y" Dramatic Club presented a one-act play entitled "The Curtain." Music for the evening was supplied by the center's Glee Club, of which Dancy G. Weaver is a member.

Other members of the campus Y. M. C. A. organization, which is headed by Timothy P. Haworth, include Thomas C. Cochran, Roy A. Dye, Arthur Evans, Louis N. Grier, and Paul M. Cope. Serving on the center's board of managers is Professor A. Jardine Williamson.

## Jones Broadcasts Survey Of Relief Work By Friends

### Lively Response Shown By Contributions And Letters Received

Changing visions of a better world into positive action is the job before the United States today, Professor Rufus M. Jones told an estimated radio audience of twelve million people in a Town Meeting of the Air broadcast devoted to the topic, "What Can Americans Do for Humanity Today?" Thursday evening, December 21.

Introduced by George V. Denney, Town Hall Moderator, as "One of America's outstanding Quakers and a citizen of the world," Professor Jones cited the work of the American Friends' Service Committee as an example of how American ideals have been translated into action. Regardless of the race, creed, or nationality of those in need, the Committee had brought relief to northern France, Germany following the World War, Jewish communities in the Reich, and Spain, Professor Jones said.

Preceding Professor Jones on the broadcast were Stanley High, author and lecturer, and Miss Mabel T. Boardman, secretary of the American Red Cross. James G. McDonald, chairman of the President's Advisory Committee on Political Refugees, delivered the final address which was followed by a period of questioning of the speakers by the audience.

Interviewed Friday, Professor Jones said that he had personally received hundreds of letters from radio listeners expressing interest in the work of the Friends' Service Committee. He added that many of the letters contained large contributions towards the relief work now being carried on by the organization.

## Second Semester Class In Celestial Navigation Proposed By Gummere

Students and Alumni interested in studying celestial navigation met last evening in the Strawbridge Memorial Laboratory with Professor Henry V. Gummere to discuss possibilities of giving the course at Haverford during the second term.

Provided a sufficient number of persons enroll for the proposed course, celestial navigation would be given as a regular half-year subject. All class sessions would be of two hours and would be held on Monday evenings in the Strawbridge Observatory.

Teaching of the proposed subject would be Commandant J. L. Woodruff, U. S. N. R., Director of the Division of Schools, Weems System of Navigation. Preliminary sessions, devoted to a review of the fundamentals of spherical trigonometry, interpolation, and astronomy, were directed by Professor Gummere.

Passage of an examination given at the end of twenty weeks would entitle the student to the certificate awarded by the Weems System of Navigation of Annapolis, Maryland, and the methods of teaching used in the proposed course are similar to those of the United States Naval Academy.

#### ENGIN STUDENTS WARNED

Engineering text books for the second semester will not be ordered by the Engineering Department as usual, but will be ordered by the department in advance through E. S. McCawley and Co. As the books must be ordered in advance all students intending to take Engineering 2B or other courses during the second half should notify the department before the beginning of the examination period.

that failed to keep the cold out, these hardy pioneers nevertheless returned claiming to have proven themselves efficient housekeepers. They bought all their food in the town of Tamworth and cooked over a wood stove in the kitchen. This stove seems to have been the center of interest throughout the sojourn since it was the only source of heat.

Skiing was good on the north side of a hill near Tamworth, the several inches of snow having a firm crust and being improved by two fresh snowfalls during the week. After skiing for most of two days near Tamworth, the campers took a longer trip to Crawford's Notch on Friday. Saturday they tried their ability at following ski trails which had been pretty well obliterated by a snow Friday and thus explored the neighborhood.

On Sunday Blum, Howe, and

Roberts undertook a trip to Mount Washington, Howe and Roberts succeeding in reaching the summit. Skiing on the lower slopes of the mountain proved excellent.

Leaving Tamworth at ten o'clock on New Year's Day, the party steered back South full of glowing accounts of the trip for their friends. However, according to Blum, "the big feature was that expenses totaled no more than \$3.68 apiece, excluding the cost of gasoline." Surprisingly enough, this sum covered the cost of three steak dinners.

Tamworth is a small town in the White Mountains of central New Hampshire which has widely recognized winter sport advantages. Also active as a summer resort it annually attracts several families of summer colonists. During vacation week there were about a hundred skiers and skaters in the neighborhood.

## Reading Period Recommended

Like a good many undergraduates at this time of year, students who arrived at Mount Holyoke this morning returned not to the classroom but to the library. For the next ten days, and again later this spring, Holyoke's students will be occupied with a reading period. Similar periods, when all classes are suspended and the student body given a certain amount of time to cover a required amount of reading matter, occurred at Yale and Princeton immediately preceding the Christmas vacation.

That an increasing number of eastern colleges and universities have incorporated the reading period into their scholastic curriculum does not seem surprising when the merits of the system are examined. Most important for Haverford, however, is the fact that the advantages which have recommended the reading period to other institutions are particularly applicable to the educational ideals for which the College stands.

Providing the student with the general tools of knowledge and a broad background of what was important in the past may be said to be the duty of the textbook and the formal lecture. But furnishing the essentials is but half the task of education. Classroom recitation must be seconded by an intelligent use of the materials supplied, this being provided at Haverford by required outside reading requirements and honors work.

Adoption of a reading period at the College would not only increase the opportunity for outside assignments which at the present professors are forced to squeeze in at odd intervals but might very well lead to realization of an ideal for which President Comfort has consistently fought—every student an honors student. Under the present set-up, however, the student doing honors reading is the exception, not the case. Besides, the reading assignments required in certain courses have lost their significance to many an undergraduate who, pressed because of regular class work, regards the outside work as something to be tossed off in the minimum of time, to be forgotten afterwards. Were the assignment of such reading, or at least the bulk of it, put off until a definite period, not only would the professor find the student devoting more time to daily work but that the latter during his reading period had an opportunity to get something out of the books which complemented the daily work.

It has never been the intent of the Haverford system to discourage independent research and initiative on the part of the student, once his interest has been aroused by the professor in a certain field of study. Unfortunately, however, the result has been far from the original intention. For, as the system works today, with very few exceptions, the student finds himself reading only what is directly assigned to him. It is not that he is unwilling to investigate deeply, say the application of Locke's political philosophy to modern American government; rather, if he is conscientious in his work, he finds that he has no ten days or two weeks in which all classes would be suspended, he would have the opportunity to satisfy the desire which originally grew out of his classroom work.

Adoption of the reading period at Haverford would not only benefit the student of the social sciences, languages, and literature but also the undergraduate registered in any one of the four science departments. In this case, however, the time set aside might profitably be devoted to individual experimenting on the part of advanced students and to supervised laboratory sessions for the beginner. In this connection, it is significant to note that Mount Holyoke has extended the ten-day suspension of classes to science as well as liberal arts courses.

To whatever field the reading period might be applied, to the sciences as well as to the liberal arts, the underlying purpose would be the same—a profitable opportunity for individual interest and initiative, stirred up in the classroom and guided by a professor's reading list, to follow its desires. No goal could be more in keeping with the Haverford educational ideal. Nor the result more desired. For, if it has not been the unobtrusive bog of Haverford in the past that its graduates were possessed not only of a broad cultural and professional background but also of the ability and incentive to use that background, then the College has had no right to exist for one hundred and six years.

## Crow's Nest

The late vacation which we still think of now and again brought one anecdote that at the time we considered pretty funny, not as funny as something you might read in Snappy Stories or the rejuvenated Haverfordian, but still funny enough to meet the lenient demands of a happy Yuletide reveler. We realize that no one is lenient now and that even the gentlest laughter is travesty in the face of the pre-Mid Year days, but we would like to tell the story anyway if only for the faint sense of holiday irresponsibility that manages to cling to it. Seems that a lady we know was at a New Year's Eve party where there was also a doctor's wife whom, to purposely confuse our readers, we shall call Mrs. Black. Turns out that Mrs. Black had had at one time operatic ambitions, and was as a dread consequence entertaining the gay merrymakers with many songs from many lands, strictly from the diaphragm, as we say in the trade. In the midst of this apparently endless repertoire someone who had obviously never seen the good doctor Black before in her life turned to him and remarked of his wife, "Absolutely indefatigable, isn't she?" Our friend sensing the unpleasantness that might result from any further heavy-handed innuendos quickly put in, "Oh, yes, mostly, but in my WIFE. Sings beautifully, doesn't she?" Doctor Black raised his great patient brow, and said in a steady professional voice, "She's a manic - depressive you know."

We feel constrained to say something about the New Year, but there's nothing we really want to say about the damn thing except that we hope it goes right ahead and does what it's going to do and gets it over with. We're glad to report that so far we haven't seen one list of funny resolutions, but resolutions to be adopted by the European nations. It can't be that after 1940 years the boys have at last realized that resolutions are even too ridiculous to be made for other people or to be the stuff of many a jolly quip and jest.

It's too late now to do much about our long cherished plan of a feud with Bryn Mawr's weekly yellow journal. We've told them time and again that they're not beneath our elevated notice and that we would gladly carry them along in a sort of batting practice. Until the Slippery Resol-Clarion or some other publication that measured up to us in battle grew really obstreperous and required all our alumnus. But Bryn Mawr has taken the coward's course; they have chosen to occupy themselves solely with themselves and to disregard completely the dull thrud of our drooping gaze.

The war was brought startlingly near when we interviewed by a NEWS' poll representative only last night. Our complete intellectual unpreparedness was shamelessly revealed by the ruthless quiz. Would we fight if the existence of England and France seemed threatened? Fight whom we wondered? England and France, so we could be in at the kill? Frankly we weren't prepared to answer this question. The one that really stumped us though was that dillie about would you fight for the United States? (a) on our own soil? (b) in the Western Hemisphere? (c) in Europe? Rapidly we thought of more conditions (d) if we were mad at another country? (e) if we were mad at the United? (f) if we were mad at ourself? (g) if we wanted to save democracy? (h) if we were tired of it all? You see how confusing it can be made. We were never confused till that unsettling NEWS' poll man came around. We always thought that if the United States fought, we fought. It was all right to give the local force some backchat, but you just didn't rile them federal officers.

### COLLECTION SPEAKERS

Friday, January 12:  
William Worcester Dorman '38.

Tuesday, January 16:  
Prof. John William Flight.

## Post Time

By Piers Plowman

"This is very big—much bigger than you imagine. It had to come." These were the words of British War Minister Leslie Hore-Belisha when questioned about his forced resignation from the Cabinet post. It seems to me that this action is the most significant clue we have had yet as to the future course of the present word war. It has also cleared enough of the fog that has enshrouded the prosecution of the war on the Western front to reveal no small amount of intrigue. Why has the war along the West Wall languished? The pretense of carrying on a war in the west was too weak to be taken seriously—it was called the phony war. But when this conflict reaches its fatality there will be nothing phony about it, and when it does I don't think England and Germany will be fighting against each other.

It must have seemed obvious to both sides early in the campaign that there was no use trying to smash through their respective defense lines along the Rhine. Both the Maginot and Seigfried Lines are impregnable and any vigorous offensive would be military suicide. Hence, the war in the west was stalemated.

Upon more rational consideration, the basis of conflict between Great Britain and Germany began to disappear. There was no longer sufficient incentive for war. Appeasement had been abandoned and the threat to the British Empire by Germany was now arrested. Furthermore, England had fulfilled its pledge to Poland by declaring war. There was no more reason for England to fight, but once started, the war was carried along by its own momentum.

In order to continue the war, Great Britain had to cast about for more convincing, rabble-rousing motives. The English are resourceful. They were fighting now to preserve civilization, and defeat Hitlerism and all that it stands for. It was a rare piece of altruism—but it didn't last long.

A change in British policy had been imminent for several months and it finally came in the form of Hore Belisha's resignation from the War Cabinet. Hore-Belisha as War Minister was more instrumental than any other man in the British Cabinet in pressing the war against Germany. His resignation will probably lead to rapprochements with Germany.

"This, I think, is the underlying reason for the shrike-up in the British Cabinet. Of course, there are more immediate factors. The War Minister, who is mainly responsible for the excellence of the English army, incurred the antagonism of Sir Kingsley Wood by trying to co-ordinate the army and the air force under a central command. He brought the opposition of "brass-hats" to a head by trying to secure supreme French command under General Gamelin for the Allied forces. The military clique succeeded in ousting Hore-Belisha and are now straining at the leash for bigger game.

It is only a matter of time before they have the opportunity of sinking their teeth into the Russian bear. The crusade will soon begin in earnest. Germany is no longer the culprit of Europe. It is the Soviet Union. Territorial aggression will not be tolerated by Great Britain and concerted action will be taken.

The Communist witch-hunt is on the way.

### COLLEGE CALENDAR

Wednesday, January 10:  
Student Faculty Dinner.

Thursday, January 18:  
News Board Meeting.

Monday, January 22 to Thursday, February 1:  
Mid-year Examinations.

Friday, February 2 to Sunday, February 4:  
Buck Hill Falls Houseparty.

Friday, March 1:  
Sophomore Dance.

## War Poll

(Editors Note: Beginning with this month, student opinion will be measured by percentages. Percentages in parentheses are for December, except in the sixth question, where the only available past figures are for November. Total number of students interviewed for the January poll was 159, for December 118.)

1. Do you feel that England and France can win the present war without any military aid from us? Yes—81% (74), No—19% (26).
2. Provided that England and France were facing defeat, should the United States enter the war on their side? Yes—33% (29), No—67% (71).
3. Which is the greater threat to world peace today, Germany or Russia? Germany—51% (35), Russia—49% (65).
4. Do you favor the Administration's decision to grant economic aid to Finland in her war with Russia? Yes—67%, No—33%.
5. Should the United States break off diplomatic relations with Russia? Yes—28%, No—72%.
6. Do you favor preventing all belligerent warships from entering the 300-mile zone set by the Panama Congress? Yes—54% (71, November), No—46% (29, November).
7. Do you favor greatly increased armaments and extension of our armed forces at the present time? Yes—40% (53), No—60% (47).
8. Under present conditions, do you favor a third term for Roosevelt? Yes—29% (29), No—71% (71).
9. Do you approve of the President's appointment of Myron C. Taylor as unofficial representative to the Vatican? Yes—62%, No—38%.
10. If the United States were to go to war, would you refuse to take up arms:
  - (1) When the war was fought on United States soil? Yes—15% (17), No—85% (83).
  - (2) When are war was fought in the Western Hemisphere? Yes—36% (32), No—64% (68).
  - (3) When the war was fought overseas? Yes—49% (65), No—51% (45).

Despite a slight increase in the number of those who believe that the United States should aid the Allies in the face of defeat, undergraduates last week shared the sentiment in Congress that American neutrality should be strengthened and the Administration's program for national defense curtailed. Results of a NEWS poll also revealed definite approval of the President's appointment of Myron C. Taylor to the Vatican and granting of economic aid to Finland.

That the sinking of the Graf Spee and England's success against the German submarine and mine campaign had influenced opinion seemed evident in the fact that four-fifths majority of those interviewed thought the Allies could win the war. Possibility of enforcing the recent decision of the Americans to keep the belligerents out of a 300-mile sea zone lost support, however, with slightly more than half of those interviewed backing enforcement. Allied successes within the past month and a mounting federal deficit reduced a majority in favor of increased armaments for America to 40%.

Failure of the Soviet Union in its campaign against Finland and Germany's recent warnings to the Scandinavian countries once more restored the Reich as a greater threat to world peace than Russia in the minds of undergraduates. Although undergraduates believe that it would be undesirable to break off diplomatic relations with Moscow, the Administration's decision to grant economic aid to Finland was supported from two-thirds of the student body, as did the President's appointment of Myron C. Taylor to the Vatican.

Opposition to a third term for President Roosevelt continued last week but showed no increase in spite of Vice-President Garner's announcement that he would run in the coming elections. While the number of those refusing to take up arms should the United States be invaded remained the same for the first time in four months a majority of the undergraduates interviewed said they would fight overseas if necessary.

## Quadrangles

Bull sessions on the campus usually end up with a discussion of Haverford in comparison with other colleges. This week there are some brief notes which will put the matter in a nutshell: Indiana University has a special series of lectures to acquaint unorganized students with extra-curricular activities. Haverfordians can be proud of the fact that, because of recent News editorials, there is no longer an "unorganized student" on the campus. . . . A special course for the maids and porters has been announced by Bryn Mawr College. This seems to be a noble attempt to imitate our well-known Janitors' School . . .

# News of Interest To Alumni

## Buck Hill Provides Chance For Many Alumni To Reunite

### Winter Sports, Excellent Food, Entertainment, Chief Attractions

Arrangements have just been completed for the Mid-Winter Houseparty at the Inn at Buck Hill Falls February 2-3-4. This weekend has become increasingly popular with alumni and undergraduates for the last few years and promises to be even bigger and better this year. There will be a Glee Club concert on Friday evening followed by a barbecue. Saturday night a good new movie and a dance. If the gods are favorable there will be plenty of winter sports—skiing, skating, dog-sledding, sleighing, tobogganing, etc.

Many alumni have already made plans to be on hand and many reunions are being arranged. It's a real Haverford party that appeals to the whole family, as many alumni have discovered since they are making it an annual outing for the children. Several classes make a reunion of it and come from New York, Boston, Washington and Philadelphia in order to see classmates under enjoyable circumstances which allow them to spend a few days with old college friends.

### Leap Year Noted

Since 1940 is a leap-year, for the advantage of the younger and unmarried alumni, the "Dutch Leap" idea is being played up so that the expenses will not be too high. The Inn gives us a special Houseparty reduction and has put the minimum rate at \$5.50 per day, American plan—which includes practically everything.

Some of the Faculty will be up and many undergraduates. It is a fine chance to keep in touch with the college and get better acquainted with the men in college, the Faculty and other Haverfordians. If you've never been on one of these houseparties, you'll enjoy the informality and friendly atmosphere. The Inn does everything it can to make us feel at home. Although there will be other guests in the Inn, it is definitely Haverford's party and a Haverford party at its best. Arrangements can be made for groups both large and small to have their meals together. In fact the Management is most cooperative in seeing that everyone has a good time.

### 100 Mile Trip

Tom Steere is said to hold the record for the trip from Haverford to the Poconos—two hours and ten minutes! It is not recommended that you try to break this record but Buck Hill is just about a hundred miles from either New York or Philadelphia on good open highways. If you don't want to drive you can take trains at Hoboken, Newark or Philadelphia and be met at Cresco.

### Alumni Calendar

Tuesday, January 9: Varsity and Junior Varsity basketball with Delaware at Newark.  
 Wednesday, January 10: Student Faculty Dinner.  
 Saturday, January 13: Varsity and Junior Varsity basketball with Moravian, at home.  
 Varsity wrestling with Lafayette, at Allentown.  
 Varsity fencing with Drew University, at Drew.  
 Friday, February 2 to Sunday, February 4: Buck Hill Falls Houseparty.  
 Friday, March 1: Sophomore Dance.

## Pittsburgh Alumni Meet At Luncheon

### Snyder, Bushnell Speak At Annual Affair December 28

Addressed by Professor Edward D. Snyder and Joseph Bushnell, 3rd, as representatives of the College, forty-four Alumni, undergraduates, prospective students, and their fathers attended the annual Christmas luncheon of the Pittsburgh Alumni Association on December 28 in the Duquesne Club. Discussed by Mr. Bushnell was the All-Haverford Membership Plan of the Alumni Association, while Professor Snyder told of recent changes in the College curriculum. Also present from the College were William H. Colbert, ex-'40, George M. Swan, Arthur G. Ashbrook, Louis N. Grier, Knox Brown, Heber R. Harper, Edgar D. Bell, and E. Clarke Stiles.

Headed by David L. Mekeel, '91, Gifford K. Wright, '93, and Elias Ritts, the twenty-four Pittsburgh Alumni present included Roy T. Griffith, '19; J. Stanton Carson, '24; Francis M. Stiffer, '25; Willard E. Mead, '26; Howard T. Magowan, '26; Harold W. Wilt, '29; and A. Boyd Ralph, '29. Also attending were Lockhart Amerman, '31; James M. Houston, '31; A. Craig Sucoop, '32; James N. Stanton, '33; Joseph Purvis, '36; Jonathan A. Brown, '36; Philip M. Whitman, '37; Thomas A. Watkins, Charles R. Ebersol, S. Knox Harper, and James M. George, all of '38.

## Stokes, '28, A Director Of Provident Trust Co.

J. Tyson Stokes, '28, was recently elected a director of Provident Trust Company. He is a member of the law firm of Morgan, Lewis, Bockius.

During his years at Haverford, Stokes included among his activities the presidency of the Student Council, captain of the cricket team, vice-presidency of the Cap and Bells Club, Editor of the Record, and president of the Athletic Cabinet. His sketch in the year book, predicting his success, reported the rumor that "after he makes his first million, Tyson will donate a new grandstand for the exclusive use of the Cricket Department."

College Preparatory Westtown School Maintained by Philadelphia Yearly Boarding School for Boys and Girls Founded 1799 Meeting of Friends (Arch Street)

Ten Regional Scholarships of \$400 each offered to boys and girls of Friends' families entering Tenth and Eleventh Grades. They are granted on the basis of character, leadership, and good scholarship, and are continued until graduation if a satisfactory standard is maintained. Examinations are required in English, Mathematics, and a third subject chosen by the applicant. Applications must reach the School by 3rd month (let. Application blanks and information may be obtained from the School office.)  
 James F. Walker, Principal, Westtown School, Westtown, Penna.

## Alumni Soccermen Win Championship And Manheim Cup

### Team Has Superlative Record In League; Wins Nine Games

With the winning of the Manheim Trophy, the 1939 Haverford Club Soccer Team closed its most successful season since the inception of an all Alumni playing group. On Saturday, January 6, 1940, it lost a 3-2 game to an all-star team composed of the leading players from other teams in The Football League of the Associated Cricket Clubs of Philadelphia. Following the game, the League entertained the participants at a banquet, fittingly held at Germantown Cricket Club, Manheim. During the fall, Haverford Club scored 55 goals to its opponents' 8 in league competition, winning nine games and losing but one. In a pre-season game it defeated the College Varsity 6 goals to 3.

### '39 Membership Higher

The number of Club members participating in soccer in the past year has been greater than in most seasons, ranging from such experienced players as I. T. Steere, '16; D. G. Baker and Harris Haviland, '26; and Sam Armstrong, '27, to such recent graduates as Frank Mears, Jr., W. Evans, J. Evans, and L. Crosby Lewis, of '39; and J. M. Steere, Jr., Hubert Taylor, and E. W. Welsburn, Jr., all of '38. Other standbys of offense and defense were C. F. Berlinger, '28; W. Richardson Blair, '30; John H. Willis, '31; A. S. Roberts and T. I. Potts, of '32, and Russell Richie, '35.

A history of the League since its founding on September 11, 1902, is given in many references to prominent Haverford graduates who, from time to time, donned soccer regalia to enjoy this form of post-graduate exercise. A. T. Lowry, '06; C. C. Morris, '04; Marney Crossman, '15; and Phil Corson, '19, formerly played under Merion's colors where, today, J. S. McConaghy, '28, and J. S. Maier, '29, carry on. Alfred Scattee'90 formerly starred as outside left with Philadelphia, for whom also various of the Germantown Evanses used to play. Frank Deacon and his brother, Gerald H. Deacon, played for Germantown and the Richie family have contributed numerous members to the backbone of Moorestown Field Club Team.

Jim McPete, the wily Scot who later proved so successful as a coach at Haverford, previously played with Belmont, one of the

## Physics Teachers Name Sutton Head At Annual Meeting

### Palmer Elected To Post On Governing Board Of Association

Professor Richard M. Sutton was elected president of the American Association of Physics Teachers at the organization's annual meeting at Columbus, Ohio, during the Christmas recess. At the same time, Professor Frederick Palmer was elected by the group to the governing board of the American Institute of Physics.

The association of which Sutton is the new president is now in its tenth year of existence. It has a membership of 900 physics teachers from all sections of the country. Professor Palmer was the second president of the organization.

### Majored Under Palmer

Professor Sutton, a native of Colorado, came to Haverford first as an undergraduate in his sophomore year, 1919. He was graduated in 1922, majoring in physics under Professor Palmer. Immediately upon his graduation he went to Miami University at Oxford, Ohio, where he spent three years as instructor of physics. From Ohio he travelled to California, spending the next six years at the California Institute of Technology. Four of these years he was a teaching fellow in physics, earning his degree of Ph. D. in 1929. Until 1931 he remained at the coast school as research fellow.

In the fall of 1931 Professor Sutton returned to Haverford. He now is associate professor of physics under his old teacher, Professor Palmer.

### Has Made Contributions

During his years at Haverford, Professor Sutton has made many contributions aiding his fellow teachers of physics. Among these are numerous inventions and improvements which have aided lecture demonstrations. He has written a book designed for teachers which has met with great success—"Demonstration Experiments in Physics" published in 1938.

In the same year he led a group of teachers on a tour of European laboratories.

# Haverford Courtmen Lose Opener To Stevens Institute

## Penn Charter Tops Ford J. V. Quintet In Local's Opener

### Hallowell and Vogt Lead Charter To Decisive Victory, 33-11

Haverford College's Jayvees opened their court season last Friday afternoon by dropping a decisive decision to the Penn Charter quintet, 33-11. The win was the Charterites' fifth straight of the season and kept their undefeated record intact. George Hallowell, Weir Sargent, and Ed Vogt led the Charter scoring with ten, nine, and eight points, respectively. Ed Flaccus paced the Fords with five centers.

Haverford performed better than the score indicates, exhibiting a passing attack that at times appeared to be far better than the Charterites', but many opportunities to score missed fire, either by poor shooting or the failure to shoot at all. Charter, on the other hand, fired at the basket at every opportunity, sinking a fair percentage of their shots to win easily.

Haverford took the lead at the outset when Jerry Addams sank a foul shot. However, Charter came back to drop in a field goal to take a lead they never lost. The play was rather even during the first quarter, but the Charterites moved away in the second to gain a lead of 14-4 at halftime.

Penn Charter continued to widen their margin during the third session. However, the Fords stopped the Charter offensive during the final session, but they were still unable to score with any regularity themselves.

## Varied Activities Marked Life Of John Bullock

John Griscom Bullock, '74, died at his home, 425 South High Street, on December 14. His age was 85.

Mr. Bullock was a partner in the firm of Bullock and Crenshaw, a drug and chemical firm, until its dissolution in 1907. He was one of the organizers of the Friends Institute for Young Men. He was at one time a member of the Corporation of Haverford College.

He was formerly the president of the photographic society of Philadelphia, a member of the Franklin Institute, and the curator of the Historical Society of Chester County. He is survived by his wife, daughter, and three sons.

## Excellent Skating Prevails On Pond

Below-freezing temperatures have attracted scores of student, faculty, alumni, and local skaters to the frozen Haverford pond during the past two weeks. Opening on the day after Christmas, the pond has already been in use longer than during the entire season last year. The largest attendance was recorded on January 6 when nearly 400 skaters turned out.

With the aid of a horse, the ice is scraped every morning. During the first week the ice was too thin to use a horse, but for the past few days the ice has been four to five inches thick. All students and alumni who have subscribed to the All Haverford Membership Plan are admitted without charge.

## Fencing Team To Cross Swords With Drew Men In First Official Meet

Under the able leadership of Captain Bill McDevitt the Haverford Varsity Fencing team will cross blades with the Drew University Saturday afternoon at 3 P. M. Leaving the college immediately after lunch, the Quaker bladesmen will journey to Madison, New Jersey, where the meet is to be held and will probably be the guests of their opponents for dinner that evening.

Having been coached by Henri Gordon since Thanksgiving vacation, the Main Line duellers will present a strong team when they meet Drew for the first official game of their season. Captain McDevitt, John Clark and Sam McCulloch are expected to represent the college in the foil bracket, all three of whom were strong members of last year's varsity. In the Epee division, the Fords pin their hopes on Gene Botelho and John Hawley, who are expected to surpass their successful varsity record tacked up during last year's season. Although the loss of John Sykes through graduation is quite a blow to the team, it is expected that John Buttrick and Andre Reichel will chalk up points for the bladesmen in the sabre division.

In last year's meet with Drew the Quaker swordsmen were forced to bow to their opponents by a margin of 9-8 after an extremely close match.

## Freshmen Debate Penn On Aid To Belligerents

Taking the affirmative side of the question, a College team consisting of Howard Lutz and James S. Sutterlin last night debated two University of Pennsylvania varsity debaters at the Zion P. E. Church, Philadelphia, on the topic, "Resolved: That the United States should give all material aid to Great Britain and France in the present European war short of actual military intervention."

## Fords Drop 39-32 Decision As Warner And Magill Star

### Rally At Start Of Second Half Nets Victory For Techmen; Fords Unable To Maintain Early Pace

Netting eight straight points at the start of the second half before Haverford was able to score, Stevens Tech increased its first half margin to eleven points and staved off a Haverford rally to gain a 39-32 victory Saturday evening at Hoboken, New Jersey.

Throughout the first half the play was nip and tuck, with the lead changing hands several times before Stevens left the court with a 16-13 lead. The surge of the Engineers at the start of the second half was too much for the Scarlet and Black, however, and Haverford never recovered the lead. Ed Israel, sharpshooting forward, and Lewis, lanky center, led the Stevens' attack with thirteen and ten points, respectively, while Captain Art Magill and George Warner were the Haverford stars. Both Warner and Magill played beautiful floor games, and also led Haverford in scoring with ten and nine points, respectively.

#### Loose Play Marks Game

The game was marked by a looseness of play, with both teams, after the first few minutes, relying mainly on a fast breaking attack. A feature of the game was the amazing accuracy of both teams from the foul line. Stevens missed only one free throw out of ten, and the Fords were almost as accurate, making eight of eleven. As the game opened both teams were playing cautious basketball, and neither team scored for a short time. Field goals by Lewis and Israel soon gave Stevens a 4-0 lead, before Dave Flaccus was able to break the ice with a short lay up shot to give Haverford its first score. Another short shot by Art Magill tied the score, and then the lead changed twice before again becoming knotted at 6-6. Free throws by Jim and Art Magill matched those of Israel and Brush. Again the lead went back and forth until the count was again tied at 13-13. Warner, Jim Magill, and Art Magill netted goals for Haverford, with Jim also tallying a free throw. Israel, Dobi, and Lewis scored for Stevens. Just before the close of the half, however, a field goal by Krake and Brush's throw gave Stevens a 16-13 lead.

## The Sport Jester

By WALTON FIELD, '88

The style of play has changed to a greater extent in basketball in the past ten years than in any other major sport. Instead of the close defensive games of a few years back, a team which now fails to run up a score of at least thirty or forty points is regarded as a weak sister on the offense. Back in 1932 C. C. N. Y. barely edged Manhattan 19-18 in a typical defensive game, but, for example, Long Island University averaged better than fifty points a game during the past season.

The game has been speeded up in numerous ways. The principle one of these was the elimination of the center jump less than four years ago. However, the actual reason for this change of rules was not necessarily to make the game faster, but to remove the decided advantage held by bean-pole players who excelled primarily through their height instead of skill.

In the opinion of experts this was an excellent move, but some are still agitating for an even more drastic step—that of eliminating the back board altogether. A six-foot-nine-inch center of Loyola's great team last year, Charley Novak, actually prevented sixteen opponents' baskets from being scored in one game by merely stopping the shot with his hands before it reached the nets. Down under his own basket all this towering giant had to do was to keep batting the ball against the back board till it rebounded in. It is contended that the heightening of the back board would eliminate this distinct advantage and would bring back the real skill of the game. With the extension of the end boundaries this year and these above stated proposals for discussion, it looks like we may not be able to recognize the game of the future.

# Fords To Open Home Season With Moravian Saturday

## Day Students Edge Out South Barclay By Score Of 18-16

### Tigers Down Lions 2-1 In Best Match Of Week

According to the results of last week's intramural sports, Ashbrook's Ramblers led the volleyball teams with their 5 victories while the Tigers hold a close second, and the Grad Students lead the basketball league with three victories and one defeat to their credit.

Fresh from vacation, the North Barclay basketballers downed Old Lloyd last Wednesday by a score of 28-8. Lou Janney of the victors was high scorer of the game with 10 points. On Thursday, Founders suffered drastic defeat at the hands of Merion, who topped them 28-2. Founders made its score in the last minute of play. The closest tilt of the week came on Saturday when the Day Students defeated South Barclay by the narrow margin of 18-16. "Red" Williams starred for the Day basketballers, running up 10 of their points.

With a full schedule for the coming week, Manager Leon Solis-Cohen announces that League competition will end during the first week in March when the Shaughnessy playoff system will be used. The first and fourth, the second and third teams will each play two out of three, while the two winners shall battle for the championship in three out of five. Final standings will be figured on a percentage basis.

"Pop" Haddleton's volleyball league has progressed very well this week with the outstanding match being between the Tigers and Lions on Friday. George Al-dridge was acting captain for the Tigers since Captain Arnold was in the infirmary. The Tigers overcame the Lions in the first match, 21-9. Captain Lawrence's team rallied and turned the tables in the next game, downing their opponents 15-3. In the close, hard-fought final tilt, the Tigers vanquished the Lions 25-23 to be the victors of the set 2-1.

The Ramblers continued their victorious season by defeating the Lions 3-0 on Thursday and the Bear Katz 2-1 on Friday. Captain Hibbard's Rovers were downed 2-1 by the Merion All-Stars on Thursday. The Bear Katz, under Captain Tim Hawthorn, after taking the first game 23-1, proceeded to take the match from Captain Dickson's Wanders 2-1.

Standing in the Intramural Basketball League January 6, 1940:

Team	Won	Lost
Grad	5	1
South Barclay	3	2
North Barclay	3	2
Merion	3	2
New Lloyd	2	2
Old Lloyd	2	2
Day Students	2	2
Center Barclay	2	2
Founders	0	5

## Wrestling Team Away On Saturday Against Lafayette

### Captain Coursin Faces Strong Foe M. A. A. Champ Bryant

Coach Blanc-Roos' wrestling proteges undertake their second engagement of the current campaign in a meet with Lafayette scheduled for Saturday on the Easton mats.

Seeking revenge for last year's 22½ - 11½ defeat by the Maroon, the Scarlet and Black grapplers, under the capable leadership of Captain Baird Coursin, go into action with a comparatively novice team against the veteran Lafayette combination.

Although all entries are still tentative, two Rhinies appear likely to see varsity competition Saturday. Ellis Little is the leading candidate in the 175-pound division and Bill Shihadeh competes with Bob Evert for the 145-pound berth. Tom Little in the 121-pound class, Art Napier in the 128, Dick Bolster, Middle Atlantic title-holder, in the 136, Baird Coursin in the 155 and Chet Baum in the 165, will probably complete the team's roster. The first meet with Rutgers resulted in a 2-6 setback with Coursin and Bolster emerging as the only Ford winners.

The Lafayette record for this season consists of three decisions over Tufts, M. I. T. and Columbia. Although the Leopards came through with a narrow margin of victory in all but the M. I. T. meet, they boast the strongest team yet in the history of the Maroon grapplers. Especially powerful in the heavier divisions, their line-up includes Ed Warneke in the 121-pound class, Art Raub in the 128, Norman De Lillo in the 136, Sid Doolittle in the 145, Co-captains Jim Bryant and Bill Perry in the 155 and 165-pound divisions, and Perry Overton in the 175. Co-captain Bryant, winner of the Middle Atlantic crown last year and outstanding threat of his team, has three falls to his credit so far this season.

## Meet Delaware At Newark In Tuesday Evening Contest

### Captain Magill To Lead Scarlet and Black In Home Opener With Blue and Grey Saturday Night; Jayvees Play

Haverford College's basketball team opens the season in earnest this week, playing two games, with Delaware at Newark, Tuesday, and with Moravian in the college gym Saturday evening. The Scarlet and Black will be aiming for their first victory of the season, after losing the opener to Stevens last Saturday.

Captain Art Magill, who starred in the Stevens contest, is the only sure starter in Tuesday's contest, but George Warner, Jim Magill, Dick Beeler, Bob Miller, Ken Weyerbacher, and Dave Flaccus are others who are sure to see action. Al Dorian, Gordy Howe, and Chris Evans may also be used. The Jayvee team also plays two games in the coming week, travelling to Delaware with the varsity Tuesday for a game with the Delaware Jayvees, and meeting the Moravian second-stringers in the curtain raiser Saturday evening.

### Delaware Strong

The Delaware team, which Haverford will meet Tuesday, defeated the Main Liners last year by a 43-23 score, and opened the season last Saturday losing to an undefeated Dickinson five, 42-41. Two shifty forwards, Anderson and Crescenzi, led the Blue and Gold team, which has lost a number of regulars since last season.

Moravian, with whom the Fords open the home season Saturday, lost the season's opener to Lafayette, 37-29. The Blue and Gray defeated Haverford last year 40-28, but will miss their captain, Leonard, who scored 26 of his team's points in that battle. Aside from the loss of Leonard Moravian has a veteran team with eight returning lettermen. In addition the visitors will have two freshmen sensations in Bill Krause and Jim McConlogue. Krause, a guard, led his team in the Lafayette game with nine points, and

the six-foot-four McConlogue, also a guard, is a twenty-three-year-old veteran despite his freshman status.

### Visitors to Use Pivot

Other dependables in the Moravian line-up are Walt Blasco, center, and two small but fast forwards, Walt Brandt and Charlie Brown. The visitors stress a fast breaking offense, and work frequently from a pivot after the defense has had time to get set.

Both Moravian and Delaware will probably take the floor with taller teams than the Scarlet and Black. Only two of the Fords measure six feet or over in height, so the team will probably rely more on its qualities of speed and fight. Coach Randall has developed a style of offense better suited to his type of player since the abandonment of the figure "eight."

Bill Docherty's Jayvees will also be out after their first win of the season. Ed Flaccus, Roberts, Saxer, and Worrall, left-overs from last year's squad will probably be in the line-up, along with Rhinies Evans, Addoms, and Wingerd. The Jayvee game will begin at 7:00 P. M., followed immediately by the varsity contest.

### ENGIN SEMINAR FRIDAY

Three students will speak at an Engineering Seminar in Hillis Laboratory Friday afternoon. John W. Dorsey will talk on "Viscosity and the Reynold's Number," Wilson H. Pile will discuss "Automatic Sprinkler Protection." Donald B. Lowe will treat the subject, "Features of Modern Automobile Construction." Edwin S. Dawson will act as chairman.

# Hotson Flares Up At Shakespearean "Crackpot" Critic

## English Professor Flays Attempt To Disprove Bard Of Avon

In an interview reported in the Evening Bulletin on Thursday, Professor J. Leslie Hotson brusquely advised Charles Wisner Barrell, American secretary of the Shakespeare Fellowship to brush up on the facts of Shakespeare's life.

Barrell, who has offered the latest "scientific proof" that William Shakespeare wasn't really William Shakespeare, claims that the 17th Earl of Oxford was the real author of Shakespeare. By examination of infra-red photographs of three "Shakespeare" portraits, Barrell recently announced that the Oxford coat of arms were revealed in the pictures.

### Theories Prove Nothing

Professor Hotson declared, "These crackpot theories about the authorship of Shakespeare's plays prove nothing but flunky-mindedness among Americans who ought to know better." Flunky-mindedness, he explained, is the belief that only hereditary aristocracy or "the upper class" could produce masterpieces like Shakespeare's plays.

In disproving Barrell's theory, Professor Hotson pointed out that the Encyclopedia Britannica states that one of the portraits known as the "Ashbourne" portrait was never heard of until 231 years after Shakespeare's death and is considered not authentic anyway. Professor Hotson stated further that only two likenesses of Shakespeare, neither of which Barrell studied, could be viewed without suspicion.

### Oxford Earl Out

"Furthermore," Professor Hotson argued, "the Earl of Oxford died in 1604. If he wrote King Lear, Macbeth, and The Tempest, which show by internal evidence that they were written after that date, he very cleverly wrote them after he was dead." If the Earl of Oxford foresaw the discovery of the Bermudas, an eclipse, and the Gunpowder Plot, Hotson said "He was smarter than most English lords."

Professor Hotson, who is credited with adding more to the world's knowledge of Shakespeare than any other living man, has recently returned from a 20-month trip to England studying original manuscripts.

### MOVIES FOR CLUB MEETING

Colored movies of a trip up the North West Coast of the United States to Alaska will be shown to the Biology Club on Tuesday, January 9. The pictures given under the supervision of Mr. Woolman, are to be presented in the Biology room.

# Full Moon To Bring Freshmen Hay-ride

Freshmen aren't going to let the first full moon of the new year slip by without doing something about it — in fact, an old-fashioned hay-ride is being planned for the Rhinies and their dates early in February.

Plans for the night's outing are going ahead under the direction of a committee headed by Howard Lutz, announced Robert MacCrate, Freshman president, Sunday. Provided the snow sticks around, sleighs packed with hay will be used. Otherwise, regular farm wagons will be secured for the occasion. Although several prominent Rhinies have expressed the opinion that you can't appreciate a full moon without a date, MacCrate urged all Freshmen to go on the hay ride, girl or not. A special wagon will be provided for all stags, he said.

# Waples, '14, Active In Education Field

## Prominent Haverfordian Has Taught At Tufts, Harvard, Pitt

One of the many Haverford graduates to win success in the field of teaching is Douglas Waples, of the Class of 1914, whose present position is professor in the department of education at the University of Chicago.

Waples, who was prominent as an undergraduate, serving as editor of the Haverfordian and captain of the gymnasium team, continued his studies at Haverford in the year following his graduation, obtaining his M. A. Subsequently he studied at London University, Harvard and the University of Pennsylvania.

He began his teaching career at Harvard. He left his post of assistant professor in the department of education there to become head of the same department at Tufts at Medford, Mass. From Tufts he went to the University of Pittsburgh. He lives with his wife and three children at 5800 Blackstone Ave., Chicago.

He is the author of numerous works on various subjects, including teaching methods, libraries, and higher education.

### BRYN MAWR TO ENTERTAIN

# Alumni Club Wins Manheim Trophy

Continued from Page 3, Col. 3

clubs invited to participate in the League shortly after its formation.

### Club Organized

In the 20's a number of the Alumni banded themselves together to form the Haverford Soccer Club, an informal organization which, for the first time, gave an opportunity for eleven or more men, all of whom had had substantially similar training at Haverford, to play the game. This group included Newbold Cooper, Dr. T. C. Garrett, P. Garrett, R. Heyer, Barclay Jones, D. McDaniel, C. G. Paxson, Ray Thomas and others. Since then the League has annually invited the Alumni team to compete.

# Engin Students Inspect Richmond Electric Plant

Members of Engineering 4, accompanied by Professor Theodore B. Hetzel and Professor Clayton W. Holmes made an inspection trip through the Richmond Station of the Philadelphia Electric Company Wednesday.

The group saw the largest single-shaft generating unit that has ever been built, generating 165,000 Kilowatts.

# Somer Orchestra On Deck For Soph Week-end March 1

## Tea Dance On Saturday Following Scheduled By Committee

Music styled by George Somer and his twelve-piece band will start off the first Sophomore Week-end in the history of the College on Friday, March 1, James F. Gary, Sophomore Dance Chairman, announced Sunday.

To be held in the gymnasium from nine till one, the usual Sophomore Dance will be followed on Saturday afternoon by a tea dance, while arrangements are also being made for some sort of entertainment earlier Saturday. Accommodations for week-end dates with faculty and neighborhood families may be secured through the dance committee, which will have a list of lodgings available by February.

Featured last summer at the Dude Ranch in Atlantic City, Somer's orchestra supplied music for the Senior Prom two years ago, when by popular request they played an hour overtime. Local institutions at which the band has scored successes include the University of Pennsylvania, Swarthmore, Temple, Drexel, Princeton, St. Joseph's, LaSalle, and Lehigh.

Pointing out that heretofore there has been only the Junior Prom to provide undergraduates with a chance to bring girls to the college for a week-end, Gary said that continuance of a Sophomore Week-end in the future will depend upon the success of the venture this spring. He particularly urged all Sophomores to give wholehearted support to the plan, which will be discussed in class meeting in the near future.
