There was a discussion of what constituted "ungentlemanly conduct" in the dining room and it was decided that no standard could be set.

More evidence concerning the case of Mitchell was presented. Statements from the President of the Students' Association, the Chairman of the Customs Committee, and the President of the Junior Class were read, showing that none of them had said anything to the Freshman Class as a whole about the Honor System. Several members of the Freshman Class were then interviewed. Their testimony confirmed the above mentioned statements, that the Freshmen had never had the Honor System sufficiently impressed upon them, and that there was a general ignorance among the freshmen as to the seriousness of the penalty for violation of the Code. They also testified for Mitchell's personal good character and integrity.

After much discussion, a motion was made, seconded, and passed that the motion of June 5 concerning Mitchell be reconsidered and the penalty be commuted to non-acceptance of all his final examinations, in view of the general ignorance among the Freshmen about the Honor System and in view of Mitchell's individual character and sincerity. It was also moved and seconded that the President of the Students' Council be instructed by the By-Laws to present the Honor System to each incoming Freshman Class, and that the Honor System be placed under the jurisdiction of the Students' Council, instead of being a Class matter, and that a minimum penalty for each offense be prescribed. It was then moved, seconded, and passed that the above motion be laid on the table until the first meeting of next fall.

The meeting then adjourned on motion.

A meeting of the Students' Council was called at 12:30, President Marshall in the chair and Heller acting as secretary. No minutes were read.

President Marshall told the Council that a report had been made of drinking parties in Hibberd's room in which Winslow and Emery had also taken part, and that a bottle of wine had been found in Hibberd's room. After some discussion it was decided to have the offenders interviewed before a meeting of the council. The meeting therefore adjourned until after supper.

The council met again at 6:30. Hibberd was asked to come in. He admitted having had the wine in his room and having parties at which liquor was drunk, but said that it was usually supplied by another party. Winslow and Emery both admitted having had drinks in Hibberd's room. On some questioning the point was brought out that the drinking parties were not prearranged but merely incidental. Emery stated that these had been his only attempts at drinking.

The motion was moved, seconded, and passed, that all three should be suspended for two weeks, in accordance with the By-Laws. After much discussion, it was decided that Marshall should present the above decision to President Comfort, with an opinion of the council, that Emery should receive no greater penalty (unanimous), that Hibberd also should not receive more (vote 6 to 5), and that although Winslow in this case was no more guilty than the others, yet in view of his past reputation and behavior, he deserved less consideration than the others.

Melchior, Rex, Remwick, Hartzell, Vanneman, Miller, Jackson, Logan, Lowry, and Carman were reported for throwing spoons during Waukie Wau. It was moved, seconded, and passed, that the offenders be warned that a repetition of this would be punishable by a fine.
Smith was reported for smoking in the radio room of Sharples Hall. The regular procedure was moved, seconded, and passed.

A meeting of the Students' Council was held Monday at 8:30 evening
President Marshall in the chair and Heller acting as secretary.
The minutes of the preceding meeting were read and adopted.

Kingsbury was reported for throwing water in the dining room and Grover for throwing napkins, both of which cases were construed by the council to be ungentlemanly conduct. Dunham was reported for smoking on the campus. The regular procedure was passed for all three cases.

Marshall mentioned the fact that there had been a good deal of stealing in the college, and asked the members of the council to be as watchful and to warn fellows not to leave valuables lying around too openly.

There was a long discussion on the question of better co-operation between the faculty and students. Three main solutions were offered: to invite President Comfort, or some other member of the faculty, to attend an informal meeting of the council to talk over such problems as unlimited cuts, entrance
policies, food problems, courses and professors; also for individual members of the council to ask members of the faculty to have a meal with them and talk over common problems; and finally for each member of the council to do as much as he can to discourage the attitude that for a student to be seen talking with a professor means "sucking".

Conduct in the dining room was discussed, and several suggestions for improving Waukie Wau were offered. Hoskins said he would bring these up in cheer meeting.

It was suggested that the food committee draw up a list of dishes not desired. Other ideas were expressed by several members of the council.

The question of gambling was then brought up. It was decided to have Logan and Middleton meet with the council Tuesday after supper in order to get their co-operation in breaking up the gambling.

A short meeting of the Council was held after lunch, President Marshall in the chair and Heller acting as secretary. The minutes of the preceding meeting were read and adopted.

The question of smoking in Chase Hall was brought up, the new system of examinations being otherwise praised as working very smoothly. President Marshall pointed out that some check was necessary to hold the weaker members of the student body up to standard. The opinion of the council seemed to be that the worst phase of the situation was that two or three fellows who would leave the examination room for any purpose could hardly refrain from talking on the subject of the exam, and that a violation of the Honor Code was thereby made more likely. It was suggested that a meeting of the Students' Association be called after supper to bring the matter before the student body.

Logan was reported for smoking in Chase Hall, and Lamberti and Campbell for throwing food.*

The problem of reserved books disappearing from the Library was brought up and it was decided to suggest to Dr. Lockwood that he mention the fact in his next collection talk.

The gambling situation was discussed, the secretary reading a list of the half-yearly grades obtained by the fellows in question. The occurrence of gambling parties including outsiders in Mitchell's room was brought out. After some discussion, it was moved, seconded, and unanimously passed, that an ultimatum be sent to Mitchell and Vanneman, warning them that because of the excessive gambling done by each, and also because of the parties of outsiders, that both of these practices must cease, and that a further report of either of them taking place would be followed by a recommendation to the faculty of expulsion. After some discussion, Hartzell was included with his roommates, but not unanimously. It was then moved, seconded, and unanimously passed that a letter be sent to each of the following men who were known as habitual gamblers: Perring, Morss, R. C. Miller, Hartman, Rollman, Abbott, Knipp, Rutherford, and Winslow, warning them to stop the gambling, and that a further report of their gambling would be followed

President Marshall then made some announcements with respect to taking exams under the new system, asking every student to be responsible for finding the scheduled room, and not to crowd into one already full when there was another available. He also warned students to be careful about talking about exam questions and about causing any unnecessary disturbance. It was suggested that conditions could be improved with regard to the pencil sharpener and drinking fountain in Chase Hall.

Kingsbury wished to know the opinion of the student body in regard to the selling of smoking supplies by the store. After some discussion, a motion was made and seconded that the association go on record as favoring the selling of cigars, cigarettes, and tobacco in the co-operative store. The motion was amended to provide that action towards securing permission for this should be taken through the store committee. The motion with the amendment was passed.

The meeting then adjourned on motion.

A short meeting of the Students' Association was held after supper. The reading of the minutes of the preceding meeting was dispensed with.

The business of the meeting was concerning the new system of examinations, it being pointed out that the smoking in the basement of Chase Hall might lead to violations of the Honor Code, and besides created a danger of fire, not to mention the fact that it was not permitted under the By-Laws of the Association. It was moved and seconded that the Association go on record as favoring the permitting of smoking on the front steps of Chase Hall during mid-year and final examinations. It was then moved and seconded that the above motion be tabled. After some discussion the latter motion was passed. The meeting then adjourned on motion.

Respectfully submitted,

February 16, 1926

A meeting of the Students' Association was held after lunch, President Marshall in the chair and Heller acting as secretary. The minutes of the two preceding meetings were read and adopted.

President Marshall laid before the association the invitation that Haverford join an association of Pennsylvania colleges having as its purpose the closer regulation of athletics, stating that the Executive Athletic Committee wished the support of students, faculty, and alumni before taking any definite steps. He then read six rules already adopted by the association, and added that the Ex. Athletic Comm. would insist that a rule be adopted having for its purpose the investigation of the sources of the income of members of teams.

Various objections to the plan were brought up: the seasonal coach rule would place Haverford on an unequal basis in soccer, the one-year rule was undesirable, and training tables were necessary. It was suggested that the salary of coaches be limited instead of prohibiting seasonal coaches.

It was finally moved that this body go on record as against consideration of entrance into the association until a satisfactory plan preventing the subsidation of athletics had been prepared. It was further moved that this body go on record as against the rule prohibiting seasonal coaches and recommending as an alternative the limiting of the coaches' salaries in proportion to professors' salaries. Both motions were passed.

The meeting then adjourned on motion.

The meeting of members of the faculty together with the council was discussed. Several topics were suggested, President Marshall then appointing a committee consisting of Borton, Wood, and Sargent to make a list of desirable topics, which they should present at a council meeting for approval on Thursday after meeting.

A short meeting was held Thursday after Meeting, President Marshall in the chair and Heller acting as secretary. The minutes of the preceding meeting were read and adopted.

Borton presented the report of the committee on topics to be discussed with the faculty. The main suggestion brought out was that a report on the curriculum such as the Dartmouth report might be tried at Haverford. Various criticisms of the present state were offered as special cases to be worked on. The members of the faculty whom it was desired to interview were then considered. A motion was made seconded, and passed, that President Comfort, Dr. Kelsey, and Dr. Watson be asked. It was decided that the definite purpose of the meeting would be the formation of a faculty-student committee to go over the courses in the curriculum and work out changes from the point of view of co-operative education. The members of the council were urged to read the Dartmouth report before the next meeting of the council, which was set for March 3 after Y meeting.
