

Audio Message by Al-Baghdadi Rejects US Withdrawal From Cities, Calls For Jihad

July 9, 2009

[Please note: Images may have been removed from this document. Page numbers have been added.]

On 7 July, a forum participant posted to a jihadist website several links to a 43-minute 1-second audio message by Abu-Umar al-Baghdadi, amir of the Islamic State of Iraq (ISI), entitled "Glory in Protecting Religion and Honor." Al-Baghdadi criticizes the Iraqi Government's celebration of the National Day and the withdrawal of the US forces from the cities by virtue of the security agreement. The audio was released by the Al-Furqan Media Production Establishment, the media arm of the Islamic State of Iraq's Ministry of Information, and published by the Al-Fajr Media Center.

A translation of the audio message follows:

"All praise is due to God. We praise Him, we beseech Him for help, we ask for His protection. Whomsoever God guides, there is no one who can lead him astray, and he whom God finds in error, and there is no one to guide him. I bear witness that there is no god but God, He Who has no partner, and I bear witness that Muhammad is His servant and messenger.

"God the Almighty says: 'Those who believe not in the Signs of Allah, Allah will not guide them, and theirs will be a grievous Penalty. It is those who believe not in the Signs of Allah, that forge falsehood: it is they who lie' (Koranic verses; Al-Nahl, 16:104-105).

"The rejectionist (Shiite) government and its agents have celebrated what they called the National Day of the security withdrawal from the Iraqi cities to its (US) bases.

"Firstly, we say that there is no dispute among the people of knowledge that even if the occupying Americans have no presence except in a small hand span of land in the desert of Iraq, away from all forms of lives, every Muslim has to practice jihad against them until their expulsion from this hand span of land.

"How come? Since they, themselves, acknowledge that the US occupier, with all its power and military equipment, and the security companies, with all their numbers and equipment, are still occupying the country. They have the right to interfere in the military, security, and economic affairs; including the right to exterminate, shell, destroy, terrorize, and detain. They have the right to get in and out of the country without any kind of supervision or search. They have the right to loot and plunder the wealth of the country under the guise of exportation, importation, and duty-free.

"All the outcomes of this agreement are considered treachery, disgrace, shame, and going too far in lying, deception, and forgery in the facts of history. The current Speaker of the parliament; the member of Al-Tawafuq Front and the leading figure in the Islamic Party, turned up to say that this day proves that the political option was the correct option.

"We say to this man and his supporters that, regrettably, the Al-Tawafuq Front, led by the Islamic Party, has played, and is still playing, the ugliest role in the history of any agent group that betrays its religion and its country so far. The Islamic Party, the leader of Al-Tawafuq Front, has signed the London and Salah-al-din documents that asked the American to occupy the country and kill its people.

"Then, they settled the matter for the occupation by their participation in the Governing Council, headed by (Paul) Bremer. Afterward, they established the rule of Taghut (idol) and set aside the Shari'ah of God through their participation in drafting a secular constitution and their endorsement of this constitution.

"Then, they fought every honored man in this country; namely, the heroic mujahidin by forming the Awakening Councils. As the criminal Tariq al-Hashimi has acknowledged that history will record that they were the ones who formed the Awakening Councils by their support, their finance, and their continuous demand that the occupation must remain for the longest possible time. They have codified this presence by signing the security agreement; this agreement which created the lie of the national sovereignty. We have pauses for reflection with this day and this agreement:

"First: the US occupier has not come to Iraq to withdraw from it. The Americans are invading occupiers, who are motivated by fallacies of creed (religion) and economic interests that would drive them to stay and to make occupation permanent by all possible means. The least of these religious interests is defending the Jewish state to implement Torah's ambitions that the criminals aspire to. Among the economic interests is the oil since the Gulf region alone contains approximately 50% of the world reservation of oil according to the Gulf Institute for Strategic Studies, given that there is no dependable alternative energy until today, the increase in need for oil, and the depletion of oil fields in the consuming countries up to 9% per annum in some of the super powers such as the United States and Britain.

"Second: It became military and materially impossible for the US occupier to continue its deployment over the Iraqi soil in this combat readiness. Concerning the material level, the reports and researches proved that the war on Iraq was the key and genuine reason for the big economic crisis in the United States and its reflections on the world countries. (Missing part of name) who is a winner of Nobel Prize confirmed that the cost of the war in Iraq reaches 250 billion dollars annually. The costs of the US soldier are in incessant increase. During 2008 alone, 20 billion dollars have been spent to purchase more fortified vehicles. The costs of physical and psychological treatment of the US soldiers and their families have been increased. The collapse of devilish alliance of the US occupation of Iraq resulted in an extended deployment of the US army especially after its major allies ran away from the battlefield and the US occupier remained alone which forced it to start an extended deployment, an increase in the spot of lands that it must cover, and the military and material cost produced by this.

"Secondly, the military perspective: The US occupation realized that the Muslim giant will never die even if it became sick. The stabs of the traitors against Islam from all directions did not succeed, especially after the men of the Islamic State showed doctrinal, military, and ethical steadfastness, which astonished the occupation and made it lose its mind.

"The war of the Islamic State against the Awakening Councils with the heavy financial, military, and media cost of the war and its ability to defeat this malicious scheme were indications for the progress of the work (of the Islamic State).

"Although they (US forces) have announced that they will not withdraw from Baghdad, Mosul, and Diyala, the announcement of the beginning of the blessed Good Harvest Plan and the auspicious return of hunting US heads in Iraqi cities made the decision of withdrawing from the Iraqi cities a military necessity and a way out of the trap of attrition, from which they suffered for long years.

"Consequently, the Security Agreement and its outcomes were a military necessity. The emergence of an escalating powerful combatant front forms a great danger to the infidelity in general in Pakistan and Afghanistan. The nuclear weapon in Pakistan and the existence of Taliban arm in Afghanistan formed a danger to US presence in the region after the reports proved that the (Islamic) Emirate was indeed having control over 80% of Afghanistan, which required the presence of more troops in this region.

"Yet, they are not able to send even a single soldier (to Afghanistan) without withdrawing another from Iraq and any withdrawal from Iraq will have an impact on the combatant presence in the Iraqi cities and expose the soldiers to a great tangible danger. That was why that Security Agreement was necessary to protect their soldiers. On the other hand, there was an apparent European stinginess and a lack of any desire to send more troops to Pakistan and Afghanistan.

"The entire (US) military manufacturing is facing a tangible danger after the military deployment in Iraq. The major companies have faced bankruptcy, such as General Motors, one of the biggest US companies. This company manufactured most of the engines of US warplanes and warships, in addition to other vehicles. At the same time, the White House declared that they would stop manufacturing certain types of planes and other military projects.

"Therefore, the White House was involved in a serious talk with Russia to limit the armament and decrease the military arsenal due to a clear shortage in the US budget, which reminds us with the status of the Soviet Union before its collapse. We expect this to happen soon, God willing, during the administration of the black of Washington (Derogatory reference to US President Barack Obama).

"Due to all the above, the Security Agreement came to protect the US enemy. The treason of those who signed it was very apparent, on top of them the Tawafuq Front, led by the Islamic Party.

"However, the important question will be: How were the Americans prepared for the danger caused by their withdrawal from the direct fight in the cities?

"First, the Iranian danger: The protector of the cross realized that he has lost his political battle with the Magus of Iran. He became convinced that he has to let the Iranian Persians --even temporarily-- share part of the cake to please them, even for just a while. The agreement was based on this. The Security Agreement was passed after an Iranian objection, which required the traitor Iraqi politicians and all the forms of the doctrinal and sectarian spectrums, including the traitors of the Tawafuq Front, to make quick trips to Iran.

"The impact of this agreement was clear when the US occupation made the decision to waste the most important pressure card against Iran, which is the Mujahedin-e-Khalq, a military group experienced in fighting the Iranians. After they took their weapons, they besieged them (Mujahedin-e-Khalq) and told them they had to leave Iraq. They asked them to head either to Iran, which issued a general pardon to them if they returned as part of the US agreement, or to other countries.

"Consequently, the European Court of Justice released its famous decision to remove the Mujahedin-e-Khalq Organization from the list of international terror organizations. This agreement became very clear in the calm attitude of the leaders of the White Houses regarding

the crisis of the Iranian elections. At the same time, the voice of the Britons (on the crisis) was louder after they escaped the bottleneck of besiege of their troops in Basra and their early escape.

"The agreement raised real concerns among the Arab nations, which went too far in their enmity to the state of the Magus to please the US master, which required the (US) secretary of state to make coordination trips to these countries.

"Second, the danger of the Islamic State in Iraq and its allies, which emerges amid any deterioration in the security status, especially after the clear retreat of the agent and traitor groups.

"Everyone must know that the real and almost the sole danger, which the United States fears and does not wish to see it, is the return of the hegemony of the Islamic state in Iraq and the restoration of the full control of the Islamic state. The only danger that terrifies the West is Islam. The only threat to their entity and existence is the doctrine of Islam.

"There is no possibility to negotiate with them and reach compromising solutions; therefore, the United States and its agents prepared the second choice in the neighboring countries in the region. This choice will only take place in case of the severe deterioration of the status or the escape of the gang of the Green Zone and their allies of the traitors of the Tawafuq Front, on top of which the Islamic Party.

"The West knows very well the game of making leaders. They have used it many times and it proved great effectiveness. After harassments and pursue, the leader falls. However, due to pressures and popular calls, he returns to take responsibility.

"This is what is going on today in regard to finding substitute when there is a collapse. The first step was purely American, and then it was hatched by the rejectionists before it was produced regionally. We saw and everyone saw with wonderment the picture of this person or that, published and hanged under bridges, under which is written: 'wanted for the US forces,' alongside the picture of Al-Zarqawi, may God grant him His mercy. This is at the time that they stay at their homes, receiving delegations, hosting banquets, and talking about the honor of the mujahidin, while the US forces, which seek their arrests, are stationed a few meters away. Whereas, in the case of Al-Zarqawi, it was not until scores of houses were shelled that he was killed. The game got wider, and the industry became more mastery and crafty, as the play of exile was set under the guise of arrest warrant. In the exile, the doors were wide open to convey the word of truth to the loving masses. Thus, well equipped and costly TV satellite channels were launched. Some countries can not even launch one channel of these, let alone launching more than one. These channels began to show the heroism of the leaders, their historical glories, and their steadfastness to brave stances, accompanied by the attempt to distort the real image of jihad, in the battlefield, and to depict them (mujahidin) as people how are stupid in political field, foolish in media front, and murderers in the field, seeking to break up the country, and kill the people. Then, some phony names for groups visualized in the imagination of those who created them, hurried to bless the leaders' statements, embroiled with some ground realities. Exactly just like elderly people who say one fact out of hundred lies. All of a sudden, many bravely acts began to show up attributed to groups and armies carrying the names such as Al-Karar, Al-Jarar, and Al-Battar.

"What makes me forsake the Andalusia; the many names such of leaders as Mu'tamad, and Mu'tadad.

"Kingdom titles which are misplaced, just like a cat moaning like a lion. (Poetry)

"These names, phony or real, were then blessed by the new leaders in a plan to overlook the Islamic State of Iraq under the pretext that it only represents 10 percent of jihad, and that it has no political program, let alone, according to their fabrications, that it is socially outcast as if it came from the outer space. The idea began to be promoted on the media level, and steps for its implantation began on the ground in preparation of the forthcoming day of change, which was achieved due to the blood of the sons of the Islamic State of Iraq, and the honest people in this land. Lately, a lie was widely spread and was believed by those who promoted it, that the jihad in Iraq has neither a political program nor a real political facade that can represent it. We can not but to say: God is sufficient for us, and He is the best disposer of affairs. You projected those, whose success and accomplishment God has witnessed to, as the stupidest of people, and the last ones to realize what is good for their jihad. Almighty God said: ' And those who strive in Our (cause), - We will certainly guide them to our Paths: For verily Allah is with those who do right.' (Koranic verse, Al-Ankabut, 29:69)

"The author of Abwa' al-Bayan said: 'God, Exalted He is, mentioned in this noble verse that those who strive in His cause, He will guide them to the path of success. He pledged to do that.' God has taken upon Himself to guide the people of the frontlines and those who are in the trenches to the true path in the earthly world and in the Hereafter. They carry out jihad for clear goals, obvious plans which are known by their high and low ranking members alike; to exalt to the heights the world of God, and to humble to the depths the word of unbelievers. This is our political program and our main goal. And this is why we declared the Islamic State of Iraq in the land of the two rivers.

"How odd! O people, is the lifting the banner of secularism in the name of democracy, and the call for the return of the Ba'th Party is a political program while the Islamic State is not? Is throwing oneself in the laps of the Syrian Ba'th party and the Nusayri government, and the appearance in their TV channels is a political program, while the Islamic State of Iraq is not? Is holding meetings in the hotels with the agent of the Jews, and the confederate of treachery, the son of Husayn of Jordan, is a political program while the Islamic State of Iraq is not? Is the treachery in the rooms of the intelligence of Umar Sulayman of Egypt, and begging those who kill our people in Gaza is a political program while the Islamic State of Iraq is not?

"Moreover, tell me O people, who are the facade of the mujahidin? Are they those who remained in their houses; whose feet were never dusted in the arenas of jihad in the cause of God and the fight against the occupation? Do they deserve to be a facade of the mujahidin?

"Does the one who escape from Iraq and left his people in their ordeal many years ago; who did not wipe their tears, heal their wounds, or defend their honor, deserve to be a facade of the mujahidin?

"Tell me O people, has Iraq not received and welcomed Abu-Mus'ab al-Zarqawi, Abu-Qaswarah al-Maghribi, Abu-Usamah al-Tunisi, and Abu-Dujamah al-Yamani until they were killed among its people, defending the honor of its women? Is Iraq not still able to contain more and more of the muhajirin (immigrants)?

"However, Iraq did not accept the Al-Shimari, Al-Janabi, and Al-Dulaymi. How far are you from being just?

"Did the Messenger of God, peace be upon him, leave Medina to a secure place under the pretext of the Jews' slyness and the polytheists' deception? Or did he stay in the place of horror without sleeping, guarding himself at times and guarded by his companions at other times while he was digging the ditch, leading the armies, and bending something over his stomach out of hunger? Does the change of time change Shari'ah and rulings? Ahmad and Abu-Shaybah narrated with a rigorously-authenticated chain of narrators, on the authority of Ali-may God be pleased with him, that he said: 'I witnessed the day of Badr (Battle) when we seeking the refuge of the Messenger of God, peace be upon him, who was the closest to the enemy and was the strongest and most courageous on this day.'

"Moreover, are not the states, which they are now begging and looking forward to collect the leftovers of aspirations of ruling and politics, the same states that participated first of all in the embargo against Iraq until the children's health deteriorated and died? Are not these states the same that participated directly in the Crusader occupation of Iraq? Did not Egypt open its Suez Canal to the US warships moving to obliterate the land the people? Did not the Crusader fighters take off to bomb Iraq from Saudi Arabia? Did not the Crusader armies enter from Jordan to the H-3 Zone (Air Base) in the western area? Has not Kuwait been, and still is, the largest camp and area for moving toward Iraq, and destroy its lands, and annihilate its crop and people?

"Tell me what is the secret that made them change their stances suddenly and become merciful and fair to our countries and people, who are the same people? Tell me what is the secret that made the Kuwaiti National Assembly request that a specific bloc represent the mujahidin, and how come those who hailed the killing of our people and the destruction of our countries suddenly became looking after our countries and holding the banner of Islam?

"Today, we witness the biggest robbery in the history of our jihad in the Land of the Two Rivers; the formation of an awakening bloc in its new image and the birth of an evil Satan like the PLO in order to deprive the Palestinian issue of any meaning and to steal the blood of martyrs. We tell them go back to your sanity and repent to your Creator. We do not want to be your enemies, but we wish you good in the earthly life in the hereafter. There is no good better than repenting to God before joining jihad and the mujahidin and abandoning the falsehood of infidelity and disbelievers. Listen carefully people, the time of patriotism, nationalism, and Ba'thism has ended for good if God wills, along with its advocates. We believe that this is the time of the holders of the banner which says there is no god but God. You have seen that despite their greedy ambition and fierce fighting, our enemies were united by their corrupt creeds. How come we are not united by our pure creed when our only ambition is to apply the rulings of God in His land in accordance with the methodology of the righteous ancestors?

"So unite for this cause. The ruling rejectionist tripartite in Baghdad; Badr Corps, Al-Da'wah Party, and Al-Mahdi Army form a dangerous trilogy of creed. They were raised in the embrace of the rejectionist revolutionary Khomeini school, which has unprecedented aggression and hate toward anything that is Sunni or Arab. They were deepened by the Iraqi-Iranian war and the official support of the previous regime. This trilogy has come to power by a dangerous plan that has a long-term strategic objective, which can be achieved by tactical transitory objectives. As for their main objective, which they strongly strive to achieve, is for Iraq to become a rejectionist state, and become home to racial and religious minorities, according to their claims, like Khomeini Iran. They use all the tricks and cunning methods the Persians are famous with throughout their history, which distinguishes the culture of the Magus Iranian policy today.

"The concept of the Shiite rule of our country has been founded under many pretexts. As Al-Qubani (Shiite cleric) has said: Iraq will only be ruled by Shiites. Cunningly, they accepted what they called the consensus democracy which superficially adopts the carrot and stick policy with their opponents in order, first, to add national and tyrant legitimacy to the current regime and,

second, to deepen the pillars of the occupation existence. Unfortunately, the Sunni scum and the fools of the nation have picked up the bait and fell in the trap of what they called the political process. They believed the lie of democracy. As soon as the rejectionists became stronger and made the pillars of their rule steady using a rejectionist army, a criminal mercenary police, and scores of gangs and militia belonging to the ruling parties, they worked on weakening Sunnis using all necessary man-made legal methods and a variety of other ways. They themselves fought them with the vicious awakening project. When they thought that they succeeded, they turned to their Sunni traitor partners in politics and rule and confiscated their dignity and freedom using different man-made constitutional methods, which they approved and took part in propagating to the nation. They dropped the diplomatic immunity of the Sunni parliament members one after the other. As a result, Abd-al-Nasir al-Janabi, who is a member of the committee which took part in writing the constitution, has escaped. Al-Da'ini also has escaped. These days, an arrest warrant has been issued against Hasan Dijan and Mahmud al-Mashhadani. There is a serious plot to drop the diplomatic immunity of Adnan al-Dulaymi and other Sunni Parliament members. The rejectionist objective behind this is to make the political participation in the political process from this day forward like the puppets of the wax theatre, moved by Magus hands in Qum and Al-Najaf.

"Umar Abd-al-Sattar al-Karbuli, a deputy representing the Accord (Front) and the Islamic Party, said with all openness and impertinence that the Islamic Party holds official and non-official meetings with the leaders of the (Islamic) Republic of Iran. As regards the official meetings, we knew them or they made us know about them. That is betrayal and handing over of the land and the people in the name of politics. If only the Accord Front politicians would tell us what do they mean by 'non-official,' other than espionage and betrayal for the interest of Iran?

"The dogs of the Awakening Councils -- who did not desist from reiterating that they, alongside their gang, are fighting the agents of Iran -- also joined in the chain of collaborationism. The Al-Sharjah Satellite Channel has announced the blessed return of the leader Hamid al-Hayis to the homeland from a visit to Teheran in which he presented the oblations of allegiance and loyalty, given that the person does not have any official position.

"We herein draw the conclusion that the Rejectionist and Khomeyni trio ruling in Baghdad aims to monopolize the executive, legislative, and judiciary powers, and allowing a slender and formal participation of the ethnic and religious minorities, as they claim through the political process, laying the ground to finalize the Rejectionist bond from Teheran to Beirut.

"Their mischievous aspirations have even reached the entirely Sunni areas in Al-Anbar, Mosul, and Kirkuk, and requested to annex Al-Nukhayb area to Karbala under the pretext of making investment in the middle of the desert, while the city of Karbala is drowning in darkness and sewage waters. The aspirations of the Rejectionists and the Kurds in the generous Mosul and Kirkuk have become noticeable to the people. Al-Maliki and Adil Abd-al-Mahdi have voiced sympathy and support to the demands of the Rejectionist Turkmen to make Tal'afar and Al-Duz two Rejectionist governorates, after tearing them out from the generous Mosul and Kirkuk, at the time they were, during the glorious days of the Islamic State (of Iraq), no more than dreaming to make a quick drive along the Al-Anbar Highway, and begging to live in Tal'afar a safe life under our authority.

"The Kurds, likewise, demanded the taking apart of Sinjarah and Shikhan, and who added the entire Kirkuk and parts of Diyala and Salah-al-Din Governorates to their new constitution. O, Sunnis! Please tell me what land and dignity are left for us, with treacherous politicians representing you and vending your blood? The inviolability of our sanctities has been licked by

the dogs of the Magi and Rejectionist government, and their aides who contributed to ruling and injustice.

"The crimes of the affiliates of the Police and the (National) Guard against the Sunnis, in all Sunni areas, have considerably and strangely increased during the last days, before the very eyes of the governors of the Sunni governorates and the police chiefs, members of the Accord Front and the Islamic Party. The mandate of Ma'mun Sami Al-Alwani, former governor of Al-Anbar and prominent member of the Islamic Party, witnessed major and dangerous violation of the dignity and purity of our mothers, daughters, and sisters in that governorate, without deterrence or accountability against the offenders.

"Members from Hadithah and Al-Ramadi Police, who abused the inviolability of the pure women, are free. Moreover, one of the senior Police officers in Al-Fallujah has violated the purity of a Muslim woman from the city after that he doped her, while another officer has videotaped him. To go over the top with the wrongdoing, they disseminated the videotape in the City of Mosques which clearly shows the victim and the criminal.

"However, Ma'mun (Al-Alwani) has not taken any procedure against the Police chief of the city or any of the security chief officers who belong to the Islamic Party. The people in Al-Fallujah have endured a state of oppression during which they were not even able to carry out a march of protest to point the finger at those who abused their honor and violated their dignity. The news has spread among the common people, and following the second Al-Fallujah battles, the Rejectionist soldiers have written everywhere on the walls of the city 'Today your lands, your honors next.' Effectively, the Magi kept their promise, but at the hands of their agent police affiliates of the Islamic Party and the Accord Front. Is this really the city that upheld the banner of jihad, and performed the most epic examples of sacrifice and bravery without submission to the tyranny of the Crusader occupier and its agents? Is this the city where the bloods of the martyrs, supporters and emigrants, have stirred together?

"O, people of Al-Fallujah! You used to be asleep in your homes with your sanctities protected, while the lions were in the trenches and dugouts, under the torrid sun and fire of rockets, guarding you against your enemy in the Al-Sina'ah, Al-Nu'aymiyah, Al-Julan, and Jubayl. Why did you replace the lions with foxes to guard your honors? You were and you still are our people, and we were for you a pride; what mischief did you get from us, O worshippers of God, except sacrifice for the sake of God and upholding His word?

"As for Tikrit city, the police chief raped two girls from his own Al-Jubur tribe by himself, with the help of two senior officers. The news has spread in the city and the criminals are still free to this day, under Mutashar's rule, who is the governor of Salah al-Din (Governorate). He is also a member of the prominent Islamic Party and Al-Tawafuq Front.

"And in Diyala, it is even worse, especially after the rejectionist-US vicious campaigns against the lions of Diyala. Everyone knows Al-Tawafuq Front role in this campaign, and how they have been - and still are - the best aid and support of the rejectionists, who have started to make Sunnis taste the bitter cup, which they themselves had long tasted before.

"Desecrating the honor has become unimaginable. I appeal to all women less than 50 years to stop visiting their families in the US and rejectionist prisons and detention centers, or anywhere else; enough of the abuse, which happened and still is happening when they visit. We promise you that you will see our bloodshed under these prisons' walls until you see your families become free.

"Dogs have bitten the chaste women and made them cry, where are the men and the gallantry of the honorable? (Poetic verse).

"We are not the ones who shed tears, sitting down and crying like women. This has not been, and will not be, our way. Our blood becomes too cheap to defend the religion and honor.

"We are not the ones who feel sorry for ourselves, but blood is shed on our feet (Poetic verse).

"O Islam youth, who are the brave heroes of its state!

"Rise against God's treacherous enemies like hungry lions. Do not let the wounds deter you from your objective, or put down your weapons.

"He defends his den like a lion to please his cubs and family. When asked, he is kind and meek, yet like poison when attacked (Poetic verse).

"Put to the sword the necks of God's treacherous enemies and boost your determination with your prized traits and the might of your combat. Clean the land from the traitors and the rejectionists' collaborators. Pour out your blood cheaply for the cause of God, then in defense for the honor of the bereaved free women.

"If death approaches, he defends his companions with his blood (Poetic verse).

"Do not pay attention to the howling of the dogs and wolves, or to the sound of belts. They are definitely going to perish and they are too mean to stand in front of you for a single hour, for they have nothing to do with courage. Be firm with them to find God with you and His gracious angels helping you, for they help the patient who perseveres, not the scared who runs away.

"Every Muslim, who reveres God well and glorifies God's religion and Shari'ah, should exert his soul cheaply for the cause of God. Be united in your jihad. Be close and stick to each other and avoid dispute and animosity." "O people of Amr, kill the hostility among you, for hostility is like something broken and cannot be fixed (Poetic verse).

"Be as what God states in his Book: 'lowly with the believers, mighty against the rejecters' (Partial Koranic verse, Al-Ma'idah, 5:54).

"Extend your hands to every Muslim who wishes well for the country and the people, no matter how sinful he may be - unless his sins are nullifiers of the religion.

"Your brother is your brother but if anyone does not have a brother is like someone going to the war without a weapon; your cousin is like your other wing, an eagle cannot fly without its wings (Poetic verse).

"Know mujahidin Muslims that God's religion is your glory and honor and protecting the honor of your chaste sisters is a duty that your blood should be shed for. Glory in preserving the religion and honor.

"God is Great, God is Great, 'And Allah hath full power and control over His affairs; but most among mankind know it not' (Partial Koranic verse, Yusuf, 21:12).

"Your brother Abu-Umar al-Husayni al-Baghdadi"
